Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of applications for a scientific research/monitoring permit (P45U) and a scientific research/enhancement permit (P45V).

SUMMARY: Notice is hereby given that the U.S. Fish and Wildlife Service in Sacramento, CA (FWS) has applied in due form for permits to take adult and juvenile, endangered, Sacramento River winter-run chinook salmon (*Oncorhynchus tshawytscha*) for the purposes of scientific research, population monitoring, and hatchery-generated enhancement.

DATES: Written comments or requests for a public hearing on either of these applications must be received on or before December 27, 1995.

ADDRESSES: The applications and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR8, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Director, Southwest Region, NMFS, NOAA, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213 (310-980-4016).

Written comments or requests for a public hearing should be submitted to the Chief, Endangered Species Division, Office of Protected Resources.

SUPPLEMENTARY INFORMATION: FWS requests permits under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217-227). FWS requests the permits to continue the projects for which a take of listed salmon is currently authorized under permit 747. Permit 747 will expire on December 31, 1995.

FWS requests a 5-year scientific research/monitoring permit (P45U) for a take of adult and juvenile, listed salmon associated with five projects being conducted by the Northern Central Valley Fish and Wildlife Office (NCVFWO) in Red Bluff, CA and a project being conducted by the Sacramento/San Joaquin Estuary Fishery Resource Office (SSJFRO) in Stockton, CA. The five projects being conducted by NCVFWO are: A census of juvenile salmonid downstream migration, the radio-tracking of spawning adults, the entrainment of juveniles at the Red Bluff Diversion Dam downstream migrant fish protection facilities, egg incubation temperature tolerance studies, and run differentiation using fish ladder counts. The project being conducted by SSJFRO is aimed at updating the knowledge of the factors influencing young salmon abundance, distribution, and survival in the estuary.

FWS requests a 5-year scientific research/enhancement permit (P45V) for a take of adult and juvenile, listed salmon associated with the propagation and captive broodstock programs at FWS's Coleman National Fish Hatchery. The objective of the propagation program is to supplement the listed, naturally-produced salmon population. Listed adult salmon are proposed to be captured and spawned in a protected hatchery environment to increase the survival of the resultant eggs and juvenile fish. The progeny of the captured adults will then be released into the wild. The purpose of the captive broodstock program is to maintain the genetic integrity of the listed salmon species in a hatchery environment. The objectives of the captive broodstock program are to provide: Protection against loss of genetic material, a source of gametes for the propagation program, a source of progeny to supplement the naturally-produced fish, security until habitat conditions in the Sacramento River improve, egg and fry for experimental purposes, and a potential tool to assist in the recovery of the species.

Those individuals requesting a hearing (see **ADDRESSES**) should set out

the specific reasons why a hearing on either application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in these application summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Dated: November 15, 1995.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Addition

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Addition to the Procurement List.

SUMMARY: This action adds to the Procurement List a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

EFFECTIVE DATE: December 27, 1995.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Crystal Square 3, Suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202-3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 603-7740.

SUPPLEMENTARY INFORMATION: On June 30, 1995, the Committee for Purchase From People Who Are Blind or Severely Disabled published notices (60 FR 34235) of proposed addition to the Procurement List.

Comments were received from the current contractor for this service challenging the fair market price established for the service, the capability of the designated nonprofit agency to perform the service, and the impact on the current contractor. The contractor also questioned the amount of time it took for the final materials supporting the proposed addition to the Procurement List to be provided to the Committee.

The contractor questioned the fair market price established for this service because it is nearly 60 percent above the price which the contractor claimed to have been paid in its last contract year. The contracting officer informed us, however, that the contractor is being paid somewhat more than it told the Committee, and that the frequency of performance of most tasks to be done in providing the service has been increased substantially from that required of the commenting contractor. The fair market price is within the Committee's guidelines for the work to be performed and has been accepted by the contracting officer.

The contractor's challenge to the capability of the designated nonprofit agency mentioned three factors: the existence of a year-long phase-in of workers with severe disabilities to reach the final ratio of disabled to nondisabled workers; the nonprofit agency's total lack of experience in performing contracts of this type and size; and the length of time it took after the proposal to add this service to the Procurement List was published in the Federal Register for the Committee to receive the information it needed from the central nonprofit agency to satisfy the regulatory requirements of an addition to the Procurement List. The contractor also questioned the lack of detail in the central nonprofit agency's description of how the designated nonprofit agency would perform the tasks required for this service.

The nonprofit agency's plan to take a year to move from its initial ratio of disabled to nondisabled direct labor to the final projected ratio is well within the Committee's procedures for startup of a project of this type. The procedures are intended to guarantee that quality performance is maintained during the longer training period which people with severe disabilities require to perform janitorial functions. The process does not reflect a shortage of workers with severe disabilities as the contractor assumed. The nonprofit agency will offer to retain many of the current workers during this phase-in period, which is consistent with the industry practice of retaining direct
