

required to submit current information, as listed below:

1. Name
 2. Business Address
 3. Geographic area in which the applicant wishes to conduct foreclosures. (List only States or areas in States in which the applicant is a resident or is duly authorized to transact business.)
 4. If the applicant is not a natural person, the names and business addresses of the people who would actually perform the commissioner's duties.
 5. Description of the applicant's experience in conducting mortgage foreclosures or in related activities which would qualify the applicant to serve as a foreclosure commissioner.
 6. Evidence of the applicant's financial responsibility.
- In place of the above information, any party that has been designated as a foreclosure commissioner for HUD-held multifamily mortgages would be

permitted to submit a letter requesting designation as a foreclosure commissioner for single family mortgages.

(3) description of the need for the information and its proposed use:
The requested information is needed for HUD's selection of foreclosure commissioners who will satisfy the statutory requirements to be "responsible, financially sound, and competent to conduct a foreclosure." The Department is not providing any assurances of confidentiality.

Under the Act, HUD will be able to foreclose on HUD-held Single Family mortgages in about two months instead of the much longer periods—ranging up to two years—currently required under many State laws. The current long periods lead to increased holding costs and vandalism on the properties securing the loans. HUD holds thousands of loans that are ripe for foreclosure.

In view of the substantial economies to be provided by the Act, emergency approval is requested in order to appoint commissioners as soon as the Rule is in effect rather than waiting until the routine clearance process could be completed.

(4) description of the likely respondents, including the estimated number of likely respondents, and proposed frequency of response to the collection of information:

Respondents will be entities with experience in real estate foreclosure procedures. Over a three year period, the estimated number of respondents is approximately 250 in the first year and 50 each year thereafter. The estimated frequency of responses over a three year period is once per HUD region, with very few respondents expected to apply to more than one HUD region.

(5) estimate of the total reporting and recordkeeping burden that will result from the collection of information:

Reporting burden	First year	Each follow- ing year
Number of respondents	250	50
Total burden hours (@ 0.5 hour per response)	125	25
Total Estimated Burden Hours	175 (3 years)

Geological Survey

Federal Geographic Data Committee (FGDC); Public Meeting of the FGDC Facilities Working Group

AGENCY: U.S. Geological Survey, Interior.
ACTION: Notice of meeting.

SUMMARY: This notice is to invite public participation in a meeting of the FGDC Facilities Working Group. The major topic for this meeting is refinement of the working group's definition of "facility" in preparation for several standards development efforts.

TIME AND PLACE: December 21, 1995, from 1 p.m. until 4 p.m. The meeting will be held at Headquarters, U.S. Army Corps of Engineers, in Room 8222D of the Pulaski Building, 20 Massachusetts Avenue, NW, Washington, DC. The Pulaski building is located just a few blocks west of Union Station.

FOR FURTHER INFORMATION CONTACT: Jennifer Fox, FGDC Secretariat, U.S. Geological Survey, 590 National Center, 12201 Sunrise Valley Drive, Reston, Virginia 22092; telephone (703) 648-5514; facsimile (703) 648-5755; Internet "gdc@usgs.gov".

SUPPLEMENTARY INFORMATION: The FGDC is a committee of Federal Agencies engaged in geospatial activities. The

FGDC Facilities Working Group specifically focuses on geospatial data issues related to facilities and facility management. A facility is an entity with location, deliberately established as a site for designated activities. A facility database might describe a factory, a military base, a college, a hospital, a power plant, a fishery, a national park, an office building, a space command center, or a prison. The database for a complex facility may describe multiple functions or missions, multiple buildings, or even a county, town, or city. The objectives of the Working Group are to: promote standards of accuracy and currentness in facilities data that are financed in whole or in part by Federal funds; exchange information on technological improvements for collecting facilities data; encourage the Federal and non-Federal communities to identify and adopt standards and specifications for facilities data; and promote the sharing of facilities data among Federal and non-Federal organizations.

Dated: November 14, 1995.
