

consensus on scientific subjects related to protection of human health and the environment, and can support the publication of relevant BAS. In addition, and in accordance with the North American Free Trade Agreement (NAFTA), an organization was formed and is known by its Spanish acronym "CEPA" which is composed of Universities in Mexico and the U.S. which pursue environmental protection in Mexico. The proposed approach permits the development of relevant information based on scientific consensus, education of the professionals and high school students, and publication of relevant materials for the benefit of the scientific community, regulators, legislators, and above all, the general public.

The technical team is led by a uniquely qualified individual, Dr. A. Alan Moghissi, Ph.D., President of the Institute for Regulatory Science. He has broad regulatory experience and has served as a Senior Environmental Protection Agency (EPA) policy official. His interaction with industry over the years has fulfilled a critical need in obtaining an industry perspective. He has gained credibility with the intervenor community and Congress as a credible spokesman in the area of technical assessment of societal decisions. For the past 11 years under grants for this effort, Dr. Moghissi has gained unique experience and specialized knowledge in the reevaluation of risk assessments for human health and the environment. An example of the kind of accomplishments he has made is evident in the regulatory change that was made for tritium standards in drinking water. Dr. Moghissi, because of his unique past experience as stated above, is uniquely qualified to perform the proposed research.

This award meets the criteria for selection of an unsolicited application as specified under 10 CFR 600.14(e)(i) & (ii). Under subparagraph (i) the application is meritorious based on the foregoing general evaluation which is required by 10 CFR 600.14(d). Under subparagraph (ii) the proposed project represents a unique, innovative idea, method and approach which would not otherwise be eligible for funding under any other known recent, current, or planned solicitation and a competitive solicitation would be inappropriate. This award would be for approximately 5 years at an estimated total cost of three million dollars.
