

United States with either an incorrect visa or no visa, and redelivery is requested but cannot be made, the shipment will be charged to the correct category limit whether or not a replacement visa or waiver is provided.

Merchandise imported for the personal use of the importer and not for resale, regardless of value, and properly marked or commercial sample shipments valued at U.S.\$250 or less, do not require an export visa for entry and shall not be charged to existing quota levels.

A facsimile of the visa stamp is enclosed. The actions taken concerning the Government of Mauritius with respect to imports of textiles and textile products in the foregoing categories have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1). This letter will be published in the Federal Register.

Sincerely,

Philip J. Martello,

*Acting Chairman, Committee for the Implementation of Textile Agreements.*

## CONSUMER PRODUCT SAFETY COMMISSION

### Request for Comments Concerning Proposed Extension of Approval of a Collection of Information—Electrically Operated Toys and Children's Articles

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notice.

**SUMMARY:** As required by the Paperwork Reduction Act (44 U.S.C. Chapter 35), the Consumer Product Safety Commission requests comments on a proposed extension of approval of a collection of information from manufacturers and importers of certain electrically operated toys and children's articles. The collection of information consists of testing and recordkeeping requirements in regulations entitled "Requirements for Electrically Operated Toys or Other Electrically Operated Articles Intended for Use by Children," codified at 16 CFR part 1505.

The Commission will consider all comments received in response to this notice before requesting an extension of this collection of information from the Office of Management and Budget.

**DATES:** Written comments must be received by the Office of the Secretary not later than February 2, 1996.

**ADDRESSES:** Written comments should be captioned "Electrically Operated

Toys" and mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, or delivered to that office, room 502, 4330 East West Highway, Bethesda, Maryland.

**FOR FURTHER INFORMATION CONTACT:** For information about the proposed extension of the collection of information, or to obtain a copy of 16 CFR part 1505, call or write Nicholas V. Marchica, Director, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, D.C. 20207; telephone (301) 504-0416, extension 2243.

**SUPPLEMENTARY INFORMATION:** In 1973, the Commission issued safety requirements for electrically operated toys and children's articles to protect children from unreasonable risks of injury from electric shock, electrical burns, and thermal burns. These regulations are codified at 16 CFR part 1505 and were issued under the authority of sections 2 and 3 of the Federal Hazardous Substances Act (15 U.S.C. 1261, 1262).

#### A. Requirements for Electrically Operated Toys

These regulations are applicable to toys, games, and other articles intended for use by children which are powered by electrical current from a 120 volt circuit. Video games and articles designed primarily for use by adults which may be incidentally used by children are not subject to these regulations.

The regulations prescribe design, construction, performance, and labeling requirements for electrically operated toys and children's articles. The regulations also require manufacturers and importers of those products to develop and maintain a quality assurance program. Additionally, section 1505.4(a)(3) of the regulations requires those firms to maintain records for three years containing information about: (1) Material and production specifications; (2) the quality assurance program used; (3) results of all tests and inspections conducted; and (4) sales and distribution of electrically operated toys and children's articles.

The Office of Management and Budget (OMB) approved the collection of information requirements in the regulations under control number 3041-0035. OMB's most recent extension of approval expired on February 28, 1995. The Commission now proposes to request a reinstatement of approval without change for the information collection requirements in the regulations.

The safety need for this collection of information remains. Specifically, if a manufacturer or importer distributes products that violate the requirements of the regulations, the records required by section 1505.4(a)(3) can be used by the firm and the Commission (i) to identify specific lots or production lines of products which fail to comply with applicable requirements, and (ii) to notify distributors and retailers in the event the products are subject to recall.

#### B. Estimated Burden

The Commission staff estimates that about 40 firms are subject to the testing and recordkeeping requirements of the regulations. The Commission staff estimates further that the burden imposed by the regulations on each of these firms is approximately 160 hours per year for testing, and about 40 hours a year for recordkeeping. Thus, the total annual burden imposed by the regulations on all manufacturers and importers is about 8,000 hours.

The Commission staff estimates that the hourly wage for the time required to perform the required testing and to maintain the required records is about \$13, and that the annual total cost to the industry is approximately \$104,000.

During a typical year, the Commission will expend approximately one week of professional staff time reviewing records required to be maintained by the regulations for electrically operated toys. The annual cost to the Federal government of the collection of information collection in these regulations is estimated to be \$1,400.

#### C. Request for Comments

The Commission solicits written comments from all interested persons about the proposed extension of approval of the collection of information in the regulations for electrically operated toys and children's articles. The Commission specifically solicits information about the hourly burden and monetary costs imposed by the collection of information on firms subject to this collection of information. The Commission also seeks information relevant to the following topics:

- Whether the collection of information is necessary for the proper performance of the Commission's functions;
- Whether the information will have practical utility for the Commission;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological

collection techniques, or other form of information technology.

Dated: November 28, 1995.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.
