## Substance Abuse and Mental Health Services Administration

## Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies and Laboratories that Have Withdrawn from the Program

**AGENCY:** Substance Abuse and Mental Health Services Administration, HHS (Formerly: National Institute on Drug Abuse, ADAMHA, HHS).

**ACTION:** Notice.

**SUMMARY:** The Department of Health and Human Services notifies Federal agencies of the laboratories currently certified to meet standards of Subpart C of Mandatory Guidelines for Federal Workplace Drug Testing Programs (59 FR 29916, 29925). A similar notice listing all currently certified laboratories will be published during the first week of each month, and updated to include laboratories which subsequently apply for and complete the certification process. If any listed laboratory's certification is totally suspended or revoked, the laboratory will be omitted from updated lists until such time as it is restored to full certification under the Guidelines.

If any laboratory has withdrawn from the National Laboratory Certification Program during the past month, it will be identified as such at the end of the current list of certified laboratories, and will be omitted from the monthly listing thereafter.

**FOR FURTHER INFORMATION CONTACT:** Mrs. Giselle Hersh, Division of Workplace Programs, Room 13A-54, 5600 Fishers Lane, Rockville, Maryland 20857; Tel.: (301) 443-6014.

**SUPPLEMENTARY INFORMATION:** Mandatory Guidelines for Federal Workplace Drug Testing were developed in accordance with Executive Order 12564 and section 503 of Pub. L. 100-71. Subpart C of the Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards which laboratories must meet in order to conduct urine drug testing for Federal agencies. To become certified an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification a laboratory must participate in a quarterly performance testing program plus periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are *not* to be considered as meeting the minimum requirements expressed in the HHS Guidelines. A laboratory must have its letter of certification from SAMHSA, HHS (formerly: HHS/NIDA) which attests that it has met minimum standards.

## DEPARTMENT OF THE INTERIOR

### Office of the Secretary

#### Advisory Committee Establishment

**AGENCY:** Office of the Secretary, Interior.  
**ACTION:** Notice, establishment of Advisory Committee.

**SUMMARY:** This notice is published in accordance with Section 9(a)(2) of the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2 (1988) and 41 CFR part 101-6, section 101-6, 1015(a). Following consultation with the General Services Administration and the Office of Management and Budget, notice is hereby given that the Secretary of the

Interior is administratively establishing an advisory committee known as the Alaska Land Managers Forum. The purpose of the committee is to advise the Secretary of the Interior, the Governor of Alaska, and others on Alaska land and resources issues.

**EFFECTIVE DATE:** This decision is effective December 4, 1995.

**FOR FURTHER INFORMATION CONTACT:** Deborah Williams, Special Assistant to the Secretary of the Interior for Alaska, Office of the Secretary, Department of the Interior, 1689 C Street, Suite 100, Anchorage, Alaska 99501-5151, (907) 271-5485.

**SUPPLEMENTARY INFORMATION:** In the 36 years since Statehood, land ownership and management in Alaska has undergone a massive change. In 1959, nearly all of Alaska (99.8 percent) was owned by the Federal Government, and most of this land (332 million acres) was public domain under the jurisdiction of the Bureau of Land Management. Today, the State has received title to 85 million acres of a 104 million acre entitlement. Alaskan Natives, through village and regional corporations established under the Alaska Native Claims Settlement Act of 1971, have become major land holders (35 million acres interim conveyed or patented) with the eventual ownership of 45.5 million acres. Finally, over 150 million acres in Federal ownership are in national forests, parks, and wildlife refuges. These changes in land status have, in turn, generated changes in the roles and relationships of the State and Federal agencies in Alaska. Also, Native corporations, as owners of 12 percent of the State's land area, have become major participants in the complexities of land and resource management.

Since Statehood there have been several different types of cooperative planning entities charged with making an overview of Alaska issues and developing comprehensive recommendations to the State and Federal Governments. None of these planning entities exist today. The Secretary of the Interior is establishing the Alaska Land Managers Forum advisory committee, with concurrence of the Governor of Alaska, in accordance with the provisions of the Federal Advisory Committee Act (FACA) (5 U.S.C. app.), for the purpose of advising him and others on land and resource issues in Alaska.

Membership on the Forum will consist of individuals appointed by the Secretary of the Interior. To be appointed as co-chairs will be the Special Assistant to the Secretary of the Interior for Alaska as the Federal
