

Corporation (Texas Gas), P.O. Box 20008, Owensboro, Kentucky 42304, filed in Docket No. CP96-79-000, a request pursuant to Section 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.211) for authorization to construct and operate a delivery point for Gibbs Die Casting Corporation (Gibbs) in Henderson County, Kentucky. Texas Gas makes such request, under its blanket certificate issued in Docket No. CP82-407-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Texas Gas indicates that Gibbs' natural gas requirements for its plant in Henderson County, Kentucky, are presently supplied on an interruptible sales basis by the Henderson Municipal Gas Department (City of Henderson, Kentucky), a municipal customer of Texas Gas. It is stated that Gibbs has requested that Texas Gas construct a new delivery point in Henderson County to enable Gibbs to receive natural gas transportation service directly from Texas Gas. The proposed new delivery point for Gibbs will be known as the Gibbs-Henderson Meter Station. The estimated cost to construct said facilities is \$66,850, and it is stated that Gibbs will reimburse Texas Gas in full for the cost of the facilities to be installed by Texas Gas.

It is stated that Gibbs is requesting up to 2,300 MMBtu of natural gas per day to be supplied by a combination of firm transportation, interruptible transportation and released capacity for plant usage at its Henderson plants. It is further stated that this service will be provided by Texas Gas pursuant to the authority of its blanket certificate issued in Docket No. CP88-686-000 and Sections 248.223 of the Commission's Regulations. The rate schedules applicable to the proposed service will be Texas Gas' FT and IT Rate Schedules, as contained in First Revised Volume No. 1 of Texas Gas' FERC Gas Tariff.

It is indicated that because of the relatively small amount of firm natural gas service involved, that this proposal will have no significant impact on Texas Gas' peak day and annual deliveries.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is

filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

Transcontinental Gas Pipe Line Corporation; Notice of Informal Settlement Conference

November 29, 1995.

Take notice that an informal settlement conference will be convened in this proceeding on Monday, December 11, 1995, at 11:00 a.m., for the purpose of exploring the possible settlement of the above-referenced proceeding. The conference will be held at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC.

Any party, as defined by 18 CFR 385.102(c), or any participant, as defined by 18 CFR 385.102(b), is invited to attend. Persons wishing to become a party must move to intervene and receive intervenor status pursuant to the Commission's Regulations. See 18 CFR 385.214.

For additional information, please contact Warren C. Wood at (202) 208-2091 or Donald A. Heydt at (202) 208-0740.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. EG96-16-000]

West Allegheny Biomass Energy Corp.; Notice of Application for Determination of Exempt Wholesale Generator Status

November 29, 1995.

On November 16, 1995, West Allegheny Biomass Energy Corp. (Applicant), of 327 Winding Way, King of Prussia, Pennsylvania 19406, filed with the Federal Energy Regulatory Commission an application for a determination of exempt wholesale generator status pursuant to 18 CFR Part 365 of the Commission's Regulations.

Applicant, a Pennsylvania corporation, states that it intends to own and operate a generating facility (Facility), to be located in Butler County, Pennsylvania, that will consist of a 12 mw biomass-fueled combustion turbine and related interconnection facilities. The facility will be located in a new industrial park being developed in Allegheny Township, Pennsylvania.

Any person desiring to be heard concerning this application for exempt wholesale generator status should file a motion to intervene or comments with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426 in accordance with Sections 385.211 and 385.214 of the Commission's Rules of Practice and Procedure. The Commission will limit its consideration of comments to those that concern the adequacy or accuracy of the application. All such motions and comments should be filed on or before December 11, 1995 and must be served on the Applicant. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

Office of Energy Research

Energy Research Financial Assistance Program Notice 96-02; Enhanced Research Capabilities at DOE User Facilities

AGENCY: Department of Energy (DOE).

ACTION: Notice inviting grant applications.

SUMMARY: The Office of Basic Energy Sciences (BES) of the Office of Energy Research (ER), U.S. Department of Energy, hereby announces its interest in receiving grant applications for new capabilities or for upgrading existing research capabilities for innovative *fundamental* research at DOE-supported synchrotron light sources and neutron sources, and the Combustion Research Facility. Such instrumentation should employ state-of-the-art technology so that the photon and neutron beams are utilized more effectively. Applications for the development of new capabilities, as well as upgrading of existing capabilities are encouraged.

DATES: Potential applicants are strongly encouraged to submit a brief preapplication. All preapplications, referencing Program Notice 96-02, should be received by DOE by 4:30 p.m.
