

Arlington, VA, (703) 308-8326; e-mail: pembedon.libby@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may, at her discretion, exempt a state agency from any registration provision of FIFRA if she determines that emergency conditions exist which require such exemption. The Applicant has requested the Administrator to issue specific exemptions for the use of cymoxanil, propamocarb hydrochloride, and/or dimethomorph on tomatoes to control late blight. Information in accordance with 40 CFR part 166 was submitted as part of this request.

Recent failures to control late blight in tomatoes as well as potatoes with the registered fungicides, have been caused almost exclusively by immigrant strains of late blight *Phytophthora infestans*, which are resistant to the control of choice, metalaxyl. Before the immigrant strains of late blight arrived, all of the strains in the U.S. were previously controlled by treatment with metalaxyl. The Applicant states that presently, there are no fungicides registered in the U.S. that will provide adequate control of the immigrant strains of late blight. The Applicant states that each of these requested chemicals has been shown to be effective against these strains of late blight. Each active ingredient holds current registrations throughout many European countries for control of this disease. The Applicant indicates that at least a 30 percent yield reduction is expected based on the current infestation. Net revenues are expected to be reduced by over \$12 million for the affected acreage without the use of these requested chemicals.

The Applicant proposes to apply propamocarb hydrochloride, manufactured by AgrEvo USA Company, as Tattoo C, at a maximum rate of 0.9 lbs. active ingredient (2.3 pt of product) per acre by ground or air, with a maximum of 5 applications per season. A 7-day PHI will be observed. Use under this exemption could potentially amount to a maximum 225,000 lb. of propamocarb hydrochloride.

The Applicant proposes to apply cymoxanil, manufactured by E.I. du Pont de Nemours and Company, as Curzate M-8, and as Manex C-8, manufactured by Griffin Corporation, at a maximum rate of 0.1 lbs. active ingredient (1.25 lb. of product) per acre, by ground or air, with a maximum of 7 applications per season and a 5-day PHI. Use under this exemption could

potentially amount to a maximum 40,000 lb. of cymoxanil.

The Applicant proposes to apply dimethomorph at a maximum rate of 0.2 lbs. active ingredient (2.25 lb. of product) per acre, by ground or air, with a maximum of 5 applications per season and a 5-day PHI. Use under this exemption could potentially amount to a maximum 50,000 lbs of dimethomorph.

This notice does not constitute a decision by EPA on the applications. The regulations governing section 18 require publication of a notice of receipt of an application for a specific exemption proposing use of a new chemical (i.e., an active ingredient not contained in any currently registered pesticide) or the first food use of an active ingredient. Such notice provides for opportunity for public comment on the application. Accordingly, interested persons may submit written views on this subject to the Field Operations Division at the address above.

A record has been established for this notice under docket number [OPP-180984] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:
opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

The Agency, accordingly, will review and consider all comments received during the comment period in determining whether to issue the

emergency exemptions requested by the Florida Department of Agriculture and Consumer services.

[OPP-180983; FRL 4988-1]

Propazine; Receipt of Applications for Emergency Exemptions, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received a specific exemption request from the Texas Department of Agriculture (hereafter referred to as the "Applicant") to use the pesticide propazine (CAS 139-40-2) to treat up to 1,823,000 acres of sorghum to control pigweed. The Applicant proposes the use of a new (unregistered) chemical; additionally, an emergency exemption for this use has been requested for the previous 3 years, and a complete application for registration of this use and a tolerance petition has not been submitted to the Agency. Therefore, in accordance with 40 CFR 166.24, EPA is soliciting public comment before making the decision whether or not to grant the exemption.

DATES: Comments must be received on or before December 21, 1995.

ADDRESSES: Three copies of written comments, bearing the identification notation "OPP-180983," should be submitted by mail to: Public Response and Program Resource Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form

must be identified by the docket number [OPP-180983]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found below in this document.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain (CBI) must be provided by the submitter for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments filed pursuant to this notice will be available for public inspection in Rm. 1132, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, from 8 a.m. to 4:30 p.m., Monday through Friday, except legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Andrea Beard, Registration Division (7505W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Floor 6, Crystal Station #1, 2800 Jefferson Davis Highway, Arlington, VA, (703) 308-8791; e-mail: beard.andrea@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to Section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), the Administrator may, at her discretion, exempt a state agency from any registration provision of FIFRA if she determines that emergency conditions exist which require such exemption. The Applicant has requested the Administrator to issue a specific exemption for the use of propazine on sorghum to control pigweed. Information in accordance with 40 CFR part 166 was submitted as part of this request.

Sorghum is grown as a rotational crop with cotton and wheat, in order to comply with the soil conservation requirements. Propazine, which was formerly registered for use on sorghum, was voluntarily canceled by the former Registrant, who did not wish to support its re-registration. The Applicants claim that this has left sorghum growers in most of Texas with no pre-emergent herbicides that will adequately control certain broadleaf weeds, especially pigweed. Until 1993, the year an exemption was first requested, growers were using existing stocks of propazine.

The Applicant states that other available herbicides have serious limitations on their use, making them unsuitable for control of pigweed in sorghum. Although the original Registrant of propazine has decided not to support this chemical through re-registration, another company has committed to support the data requirements for this use. Propazine was once registered for this use, but has now been voluntarily canceled and is therefore considered to be a new chemical.

The Applicant states that, since growers used existing stocks of propazine between the time of its voluntary cancellation and the availability of propazine under an emergency exemption, yields have not shown a decrease. However, the Applicant claims that significant economic losses will occur without the availability of propazine.

The Applicant proposes to apply propazine at a maximum rate of [1.2 lbs. active ingredient (a.i.)] (2.4 pts. of product) per acre, by ground or air, with a maximum of one application per crop growing season, on up to 1,823,000 acres of grain sorghum. Therefore, use under this exemption could potentially amount to a maximum total of 2,187,600 lbs. of active ingredient (546,900 gal. of product) in Texas. This is the fourth time that Texas has applied for this use of propazine on sorghum under section 18 of FIFRA. Texas was issued exemptions for this use for the past three growing seasons.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 require publication of a notice of receipt of an application for a specific exemption proposing use of a new chemical (i.e., an active ingredient not contained in any currently registered pesticide), or if an emergency exemption for a use has been requested in any 3 previous years, and a complete application for registration of the use and/or a tolerance petition has not been submitted to the Agency. Such notice provides for opportunity for public comment on the application.

A record has been established for this notice under docket number [OPP-180983] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resource Branch, Field Operations Division

(7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:
opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document. Accordingly, interested persons may submit written views on this subject to the Field Operations Division at the address above.

The Agency, accordingly, will review and consider all comments received during the comment period in determining whether to issue the emergency exemption requested by the Texas Department of Agriculture.

Notice of Proposed Administrative Cost Recovery Agreement Under Section 122(h)(1) of the Comprehensive Environmental Response, Compensation, and Liability Act, Regarding the Slattery Gas Stove Site, Brooklyn, NY

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed administrative agreement and opportunity for public comment.

SUMMARY: In accordance with Section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. § 9622(i), the U.S. Environmental Protection Agency ("EPA") Region II
