

Determination

On the basis of the record¹ developed in the subject investigation, the Commission determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. § 1673b(a)), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Japan of clad steel plate, provided for in subheading 7210.90.10 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Background

On September 29, 1995, a petition was filed with the Commission and the Department of Commerce by Lukens Steel Company, Coatesville, PA, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of clad steel plate from Japan. Accordingly, effective September 29, 1995, the Commission instituted antidumping investigation No. 731-TA-739 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the Federal Register of October 10, 1995 (60 F.R. 52688). The conference was held in Washington, DC, on October 20, 1995, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on November 13, 1995. The views of the Commission are contained in USITC Publication 2936 (November 1995), entitled "Clad Steel Plate from Japan: Investigation No. 731-TA-739 (Preliminary)."

By order of the Commission.

Issued: November 20, 1995.
