

finds that New Jersey's submittal meets the requirements of section 175(A) of the CAA. In addition, EPA is proposing approval of New Jersey's 1990 base year CO emissions inventory for Camden County and the nine not-classified areas. In the Final Rules Section of this Federal Register, EPA is approving New Jersey's redesignation request, maintenance plan, and emission inventory as identified therein, as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this proposed rule. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing on or before January 8, 1996.

Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; State of Florida

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Florida for the purpose of redesignating the Tampa Florida ozone O₃ nonattainment area to attainment. In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

Clean Air Act Proposed Interim Approval of Operating Permits Program; Mariposa Air Pollution Control District, California

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes interim
approval of the title V operating permits
program submitted by the Mariposa Air
Pollution Control District (Mariposa or
District) for the purpose of complying
with federal requirements that mandate
that states develop, and submit to EPA,
programs for issuing operating permits
to all major stationary sources and to
certain other sources. Today's action
also proposes approval of Mariposa's
mechanism for receiving delegation of
section 112 standards as promulgated.

In the final rules section of this
Federal Register, EPA is promulgating
interim approval of Mariposa's title V
program as a direct final rule without
prior proposal because EPA views this
submittal as noncontroversial and
anticipates no adverse comments. A
detailed rationale for this approval is set
forth in the direct final rule. If no
adverse comments are received in
response to this proposed rule, no
further activity is contemplated in
relation to this rulemaking. If EPA
receives adverse comments, the direct
final rule will be withdrawn and all
