finds that New Jersey’s submittal meets the requirements of section 175(A) of the CAA. In addition, EPA is proposing approval of New Jersey’s 1990 base year CO emissions inventory for Camden County and the nine non-classified areas. In the Final Rules Section of this Federal Register, EPA is approving New Jersey’s redesignation request, maintenance plan, and emission inventory as identified therein, as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this proposed rule. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing on or before January 8, 1996.

ADDRESSES: All comments should be addressed to: William S. Baker, Chief, Air Programs Branch, Environmental Protection Agency, Region II Office, 290 Broadway, 20th Floor, New York, New York, 10007–1866.

Copies of the State submittal(s) are available at the following addresses for inspection during normal business hours:

Environmental Protection Agency, Region II Office, Library 16th Floor, 290 Broadway, New York, New York 10007–1866

New Jersey Department of Environmental Protection, Office of Air Quality Management, Bureau of Air Quality Planning, 401 East State Street, CN418, Trenton, New Jersey 08625.

SUPPLEMENTARY INFORMATION: For additional information see the direct final rule which is published in the Federal Register. Dated: October 24, 1995.

William J. Muszynski, Deputy Regional Administrator.

Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; State of Florida

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Florida for the purpose of redesignating the Tampa Florida ozone O3 nonattainment area to attainment. In the final rules section of this Federal Register, the EPA is approving the State’s SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: To be considered, comments must be received by January 8, 1996.

ADDRESSES: Written comments should be addressed to: Joey LeVasseur, Regulatory Planning and Development Section, Air Programs Branch, Air, Pesticides & Toxics Management Division, Region 4 Environmental Protection Agency, 345 Courtland Street, NE, Atlanta, Georgia 30365. The telephone number is 404/347–3555, ext. 4215. Reference file FL63–1–7143b.

SUPPLEMENTARY INFORMATION: For additional information see the direct final rule which is published in the rules section of this Federal Register. Dated: October 19, 1995.

Patrick M. Tobin, Acting Regional Administrator.

Clean Air Act Proposed Interim Approval of Operating Permits Program; Mariposa Air Pollution Control District, California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes interim approval of the title V operating permits program submitted by the Mariposa Air Pollution Control District (Mariposa or District) for the purpose of complying with federal requirements that mandate that states develop, and submit to EPA, programs for issuing operating permits to all major stationary sources and to certain other sources. Today’s action also proposes approval of Mariposa’s mechanism for receiving delegation of section 112 standards as promulgated.

In the final rules section of this Federal Register, EPA is promulgating interim approval of Mariposa’s title V program as a direct final rule without prior proposal because EPA views this submittal as noncontroversial and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rulemaking. If EPA receives adverse comments, the direct final rule will be withdrawn and all...
public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by January 8, 1996.

ADDRESSES: Written comments on this action should be addressed to: Sara Bartholomew, Operating Permits Section (A–5–2), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

Copies of the District’s submittal, EPA’S Technical Support Document, and other supporting information used in developing the proposed approval are available for public inspection at EPA’S Region IX office during normal business hours.

FOR FURTHER INFORMATION CONTACT: Sara Bartholomew (telephone 415/744-1170), Operating Permits Section (A–5–2), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule of the same title which is located in the Rules section of this Federal Register.

Felicia Marcus, Regional Administrator.

Clean Air Act Proposed Interim Approval of Operating Permits Program; San Diego Air Pollution Control District, California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes interim approval of the title V operating permits program submitted by the San Diego Air Pollution Control District (San Diego or District) for the purpose of complying with federal requirements for an approvable state program to issue operating permits to all major stationary sources and to certain other sources. Today’s action also proposes approval of San Diego’s mechanism for receiving delegation of section 112 standards as promulgated.

In the final rules section of this Federal Register, EPA is promulgating interim approval of San Diego’s title V program as a direct final rule without prior proposal because EPA views this submittal as noncontroversial and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule making. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by January 8, 1996.

ADDRESSES: Written comments on this action should be addressed to: Celia Bloomfield, Operating Permits Section (A–5–2), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

Copies of the District’s submittal, EPA’S Technical Support Document, and other supporting information used in developing the proposed approval are available for public inspection at EPA’S Region IX office during normal business hours.

FOR FURTHER INFORMATION CONTACT: Celia Bloomfield (telephone 415/744-1249), Operating Permits Section (A–5–2), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule of the same title which is located in the Rules section of this Federal Register.

Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Proposed Exclusion

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule and request for comment.

SUMMARY: The Environmental Protection Agency (EPA or Agency) today is proposing to grant a petition submitted by Bethlehem Steel Corporation (“BSC”), Lackawanna, New York, to exclude (or “delist”), on a one-time basis, certain solid wastes contained in a landfill from being listed hazardous wastes. Based on careful analyses of the waste-specific information provided by the petitioner, the Agency has concluded that BSC’s petitioned waste will not adversely affect human health and the environment. This action responds to BSC’s petition to delist these wastes on a “generator-specific” basis from the hazardous waste lists. If the proposed decision is finalized, the petitioned waste will not be subject to regulation under Subtitle C of the Resource Conservation and Recovery Act (RCRA).

The Agency is also proposing the use of a fate and transport model (the “EPA/CML” model) to evaluate the potential impact of the petitioned waste on human health and the environment, based on the waste-specific information provided by the petitioner. Specifically, EPA proposes to use this model to predict the concentration of hazardous constituents that may be released from the petitioned waste to groundwater if the petitioned waste is disposed in a landfill. EPA will extrapolate these concentrations to the landfill conditions and evaluate the potential of the petitioned waste to adversely affect human health and the environment. This action is called “petitioned waste” if the proposed decision is finalized, the petitioned waste will not be subject to regulation under Subtitle D of the RCRA.

DATES: EPA is requesting public comments on this proposed decision and on the applicability of the fate and transport model used to evaluate the petition. Comments will be accepted until January 22, 1996. Comments postmarked after the close of the comment period will be stamped “late”. Any person may request a hearing on this proposed decision by filing a request with the Director, Hazardous Waste Identification Division, Office of Solid Waste, whose address appears below, by December 22, 1995. The request must contain the information prescribed in § 260.20(d).

ADDRESSES: Send three copies of your comments to EPA. Two copies should be sent to the Docket Clerk, Office of Solid Waste (Mail Code 5305), U.S. Environmental Protection Agency, 401
