El Paso states that Section 31.4(b) of its tariff provides the mechanism by which El Paso adjusts the interest calculated on the unrecovered balance of its stranded investment cost in Washington Ranch Storage Facility and then adjusts the Monthly Amortized Amount allocated to each Shipper. El Paso states that the Tariff further provides that El Paso will adjust its rates for any differences resulting from the use of the estimated interest versus the actual interest and such difference shall be added to or deducted from the estimated interest for the upcoming six month period.

El Paso states that the Monthly Amortized Amount has been adjusted to reflect the projected interest and the difference in the previously estimated interest and actual interest utilizing the appropriate interest rate calculated pursuant to § 154.501(d)(1) of the Federal Energy Regulatory Commission's Regulations under the Natural Gas Act. El Paso states that the projected interest was calculated on the remaining unrecovered balance of the stranded investment costs. El Paso states that the revised Washington Ranch Reservation Surcharges and resulting Monthly Billed Amounts are shown on the tendered tariff sheets.
