

and transformers) to its Willow Creek Mine (I.D. No. 42-02113) located in Carbon County, Utah. The petitioner proposes to use high-voltage (2,400 or 4,160 volt) cables to power longwall mining equipment. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

12. Cyprus Plateau Mining Corporation
[Docket No. M-95-168-C]

Cyprus Plateau Mining Corporation, Buchanan Ingersoll Professional Corporation, One Oxford Centre, 301 Grant Street, 20th Floor, Pittsburgh, Pennsylvania 15219-1410 has filed a petition to modify the application of 30 CFR 75.352 (return air courses) to its Willow Creek Mine (I.D. No. 42-02113) located in Carbon County, Utah. The petitioner proposes to use the belt entry in its longwall development entries as a return entry during longwall development. The petitioner proposes to install carbon monoxide detectors as an early warning fire detection system in the longwall panel intake escapeway entry and the panel belt entry used as a return air course. The petitioner states that application of the standard would result in a diminution of safety to the miners. In addition, the petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

Request for Comments

Persons interested in these petitions may furnish written comments. These comments must be filed with the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before January 12, 1996. Copies of these petitions are available for inspection at that address.

Dated: December 6, 1995.

Patricia W. Silvey,

Director, Office of Standards, Regulations, and Variances.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 95-112]

Notice of Prospective Copyright License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of prospective copyright license.

SUMMARY: NASA hereby gives notice that Collier Research & Development Corporation, of 45 Diamond Hill Road, Hampton, Virginia 23666, has applied for an exclusive copyright license for computer software entitled "Structural Thermal Sizer (ST-SIZE)." NASA received assignment of the copyright on September 7, 1995, from Lockheed Engineering and Sciences Company. Written objections to the prospective grant of a license should be sent to Ms. Robin W. Edwards, Patent Attorney, NASA Langley Research Center.

DATES: Responses to this Notice must be received by February 12, 1996.

FOR FURTHER INFORMATION CONTACT: Ms. Robin W. Edwards, Patent Attorney, NASA Langley Research Center, Mail Code 212, Hampton, VA 23681-0001; telephone (804) 864-3230.

Dated: December 5, 1995.

Edward A. Frankle,
General Counsel.

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment. The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission (new, revision, or extension): Revision

2. The title of the information collection: 10 CFR Part 20, Proposed Rule, Constraint Level for Air Emissions of Radionuclides.

3. The form number if applicable: N/A

4. How often the collection required: A notification is required if a licensee's air emissions exceed a level that would result in a dose in excess of 10 mrem TEDE in any year, to the individual likely to receive the highest dose.

5. Who will be required or asked to report: NRC licensees other than operators of nuclear power reactors.

6. An estimate of the number of responses: 1

7. The estimated number of annual respondents: 1

8. An estimate of the number of hours needed annually to complete the requirement or request: 80

9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: Not Applicable.

10. Abstract: The Nuclear Regulatory Commission (NRC) is proposing to establish a constraint of 10 mrem/yr TEDE for dose to members of the public from air emissions of radionuclides from NRC licensed facilities other than power reactors. This action would provide assurance to the EPA that future emissions from NRC licensees will not exceed levels that will provide an ample margin of safety. This action is expected to be the final step in providing EPA with a basis upon which to rescind 40 CFR 61 "National Emission Standards for Hazardous Air Pollutants", Subpart I as it applies to NRC licensed facilities other than power reactors, thereby relieving these NRC licensees from unnecessary dual regulations.

Submit by February 12, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access the submittal via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library) NRC

subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions can be directed by mail to the OMB reviewer by January 12, 1996.

Troy Hillier, Office of Information and Regulatory Affairs (3150-0014), NEOB-10202, Office of Management and Budget, Washington, DC 20503

Comments can also be submitted by telephone at (202) 395-3084.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 415-7233.

Dated at Rockville, Maryland, this 7th day of December, 1995.

For the Nuclear Regulatory Commission.
Gerald F. Cranford,

Designated Senior Official for Information Resources Management.

BILLING CODE 7590-01-P

[Docket Nos. 50-325 and 324]

**Carolina Power and Light Company
(Brunswick Steam Electric Plant);
Exemption**

I.

Carolina Power and Light Company (CP&L, the licensee) is the holder of Facility Operating License Nos. DPR-71 and DPR-62, which authorize operation of Brunswick Steam Electric Plant (BSEP), Unit Nos. 1 and 2, at power levels not in excess of 2436 megawatts thermal. The facility consists of two boiling water reactors at the licensee's site in Brunswick County, North Carolina. The operating license provides, among other things, that BSEP is subject to all rules, regulations, and orders of the Commission now or hereafter in effect.

II.

Pursuant to 10 CFR 55.35(a), an applicant whose application for an operator license has been denied because of failure to pass the written examination or operating test, or both, may file a new application two months after the date of denial.

III.

By letter dated November 8, 1995, CP&L requested an exemption under 10

CFR 55.11 on behalf of its employee, an applicant for a Senior Reactor Operator license (applicant) under Subpart D of 10 CFR Part 55, from the requirements of 10 CFR 55.35(a). The schedular exemption requested would allow the applicant to file a new application before the two month waiting period expires and, thereafter, to be re-administered a written examination during the week of December 18, 1995. The applicant was notified that he had not passed his written examination (taken the week of October 23, 1995) by letter from Region II dated November 16, 1995, which would make the applicant eligible for re-examination no earlier than January 16, 1995.

The Code of Federal Regulations at 10 CFR 55.11 states that, "The Commission may, upon application by an interested person, or upon its own initiative, grant such exemptions from the requirements of the regulations in this part as it determines are authorized by law and will not endanger life or property and are otherwise in the public interest."

In support of its request for exemption, CP&L indicated that the applicant has entered a remediation process, and will be ready for re-examination the week of December 18, 1995.

IV.

The Commission has determined that, pursuant to 10 CFR 55.11, granting this exemption to the applicant from the requirements in 10 CFR 55.35(a) is authorized by law and will not endanger life or property and is otherwise in the public interest. This one-time exemption will allow the applicant to be administered a written re-examination during the week of December 18, 1995, prior to the expiration of the two month time period from the date of notification of the results of his first written examination. This re-examination would be scheduled to coincide with a previously scheduled NRC initial examination visit. Accordingly, the Commission hereby grants the applicant an exemption on a one-time only basis from the schedular requirements of 10 CFR 55.35(a).

Pursuant to 10 CFR 51.32, the Commission has also determined that the issuance of the exemption will not have a significant effect on the quality of the human environment. An Environmental Assessment and Finding of No Significant Impact was noticed in the Federal Register on December 6, 1995 (60 FR 67483).

This exemption is effective upon issuance and expires on January 16, 1996.

Dated at Rockville, Maryland this 7th day of December 1995.

For the Nuclear Regulatory Commission.

Bruce A. Boger,

Director, Division of Reactor Controls and Human Factors, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

**OFFICE OF PERSONNEL
MANAGEMENT**

The National Partnership Council

AGENCY: Office of Personnel Management.

ACTION: Notice of meeting.

TIME AND DATE: 1:00 p.m., December 13, 1995.

PLACE: OPM Conference Center, Room 1350, Theodore Roosevelt Building, 1900 E Street, NW., Washington, DC 20415-0001. The conference center is located on the first floor. Seating will be available on a first-come, first-served basis. Handicapped individuals wishing to attend should contact OPM at the number shown below to obtain appropriate accommodations.

STATUS: This meeting will be open to the public from 1:00 p.m. until approximately 1:30 p.m. The rest of the meeting will be closed to the public.

MATTERS TO BE CONSIDERED: National Partnership Council (NPC) Training and Facilitation Handbook; selection of NPC Award winners.

PORTION OPEN TO THE PUBLIC: Discussion of the NPC Training and Facilitation Handbook and other items referred to in the strategic action plan for 1995 that was adopted at the January 10, 1995, meeting. This portion of the meeting will run from 1:00 p.m. until approximately 1:30 p.m.

PORTION CLOSED TO THE PUBLIC: Under 5 U.S.C. § 552b(c)(9)(B) of the Government in the Sunshine Act, the discussion and selection of NPC Partnership Award winners, beginning at approximately 1:30 p.m., will be closed to the public. Because of the desire to keep the final selection of the NPC award winners confidential until they are officially notified and the awards are announced, disclosure of the NPC's deliberations and final selection of award winners would significantly frustrate implementation of the awards program.

CONTACT PERSON FOR MORE INFORMATION: Douglas K. Walker, National Partnership Council, Executive Secretariat, Office of Personnel Management, Theodore Roosevelt Building, 1900 E Street, NW.,
