SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of this survey is to study the public's attitudes regarding: 1) the Census Bureau's planned use of administrative records in the 2000 census and 2) a proposal to collect social security numbers for each household member in the decennial census. In the design for the 2000 census, the Census Bureau plans to expand the use of administrative records to estimate characteristics of nonresponding households, supplement missing data for respondents that return incomplete forms, and estimate the number of persons missed within households. Collection of social security numbers would assist efforts to accurately match administrative records information. This research, in

conjunction with results from an earlier survey, will enable the Census Bureau to assess the public's attitudes.

I. Method of Collection

Telephone interviews will be conducted using an automated survey instrument and a random digit dialing sampling design.

III. Data

OMB Number: Not available.

Form Numbers: The automated survey instrument will not have a form number.

Type of Review: Regular submission.

Affected Public: Individuals and households.

Estimated Number of Respondents: 1,200.

Estimated Time Per Response: 15 minutes.

Estimated Total Annual Burden Hours: 300.

Estimated Total Annual Cost: \$91,900.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection technique or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Transportation Annual Survey

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of determination.

SUMMARY: In accordance with Title 13, United States Code, Sections 182, 224, and 225, I have determined that 1995 data on operating revenue and expenses are needed for the for-hire trucking and public warehousing industries to provide a sound statistical basis for the formation of policy by various governmental agencies, and that these data also apply to a variety of public and business needs. These data are not publicly available from nongovernment or other governmental sources.

FOR FURTHER INFORMATION CONTACT: Thomas E. Zabelsky, Chief, Current Services Branch, Services Division, on (301) 457-2766.

SUPPLEMENTARY INFORMATION: The Census Bureau is authorized to conduct surveys necessary to furnish current data on subjects covered by the major censuses authorized by Title 13, United States Code. This survey will provide continuing and timely national statistical data on trucking and warehousing services for the period between economic censuses. The next economic census is in 1997. The data collected in this survey will be within the general scope and nature of those inquiries covered in the economic censuses.

The Bureau of the Census needs reports only from a limited sample of trucking and warehousing firms in the United States. The probability of a firm's selection is based on revenue size (estimated from payroll). The sample will provide, with measurable reliability, national level statistics on operating revenue and expenses for these industries. We will mail report forms to the firms covered by this survey and require their submission within thirty days after receipt.

This survey has been approved by the Office of Management and Budget (OMB) under OMB Control Number 0607-0798 in accordance with the Paperwork Reduction Act, Public Law 96-511, as amended. We will provide copies of the forms upon written request to the Director, Bureau of the Census, Washington, D.C. 20233.

Based upon the foregoing, I have directed that the Transportation Annual Survey be conducted for the purpose of collecting these data.

Dated: December 27, 1995.

Martha Farnsworth Riche,

Director, Bureau of the Census.
