SUPPLEMENTARY INFORMATION: The UIC program was implemented under the federal, Safe Drinking Water Act to prevent contamination of all underground sources of drinking water (USDW), which are aquifers capable of yielding a significant amount of water containing less than 10,000 mg/liter of total dissolved solids. If the application by the Montana Board of Oil and Gas Conservation is approved, the State would be responsible for preventing endangerment of USDWs by the following activities: (1) Disposal (via injection wells) of fluids produced in conjunction with primary oil and gas development and production, including gas plant waste; (2) injection for the purpose of storing liquid hydrocarbons; and (3) injection of fluids for the purpose of enhanced recovery of oil and gas. The program proposed by the State will regulate Class II injection activities by establishing state permits which will include technical requirements for the protection of USDWs. Such requirements include criteria for construction, testing, operation, monitoring and abandonment of injection wells.

At present, there are approximately 1,232 Class II injection wells in Montana. The USEPA has held primary administrative and enforcement authority for the UIC program in Montana since the program was implemented in 1984. The application from the Montana Board of Oil and Gas Conservation requests that EPA delegate to the State primary authority for the regulation of all Class II injection wells on all lands subject to the State's police power and taxing authority and all lands owned or under the jurisdiction of the United States, except those wells located within the exterior boundaries of an Indian Reservation pursuant to 40 CFR Section 144.3. The application includes program description, copies of all applicable rules and forms, a quality assurance plan, a statement of legal authority and appropriate memoranda of agreement.

FEDERAL EMERGENCY MANAGEMENT AGENCY

National Flood Insurance Program; Rebating Agents' Commissions

AGENCY: Federal Insurance Administration (FEMA).

ACTION: Notice.

SUMMARY: The Federal Insurance Administration (FIA) gives notice that it has rescinded Policy Issuance 5-95,

Rebating Agents' Commissions, issued on October 4, 1995, and requests public comments on rebating of insurance agents' commissions to consumers under the National Flood Insurance Program (NFIP).

DATES: We invite your comments which should be submitted within March 14, 1996.

ADDRESSES: Please submit your comments to the Rules Docket Clerk, Office of the General Counsel, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (facsimile) (202) 646-4536.

FOR FURTHER INFORMATION CONTACT: Charles M. Plaxico, Jr., Chief, Claims and Underwriting Division, the Federal Insurance Administration, 500 C Street SW., Washington, DC 20472, (202) 646-3422.

SUPPLEMENTARY INFORMATION: Where the practice is permitted by State law, licensed insurance agents may rebate a portion of the commission they earn for the sale of a given policy to the insured. This practice typically is used as a sales incentive and marketing tool. While the practice is prohibited in most States, a few States permit the practice. With more insurance producers and agents beginning to sell flood insurance policies, FIA wants the comments of as large a number of interested parties as possible in order to set policy on this issue.

During the past year, FIA received a number of inquiries from producers and Write Your Own (WYO) Companies concerning the rebating of insurance agents' commissions on NFIP policies. FIA consulted with the following three committees that advise the FIA on insurance-related issues: the Flood Insurance Producers National Committee; the Insurance Institute for Property Loss Reduction Flood Insurance Committee; and the Write Your Own Marketing Committee. The Insurance Institute for Property Loss Reduction Flood Insurance Committee did not comment as a committee, but two member companies on that committee responded as individual companies.

On October 4, 1995, FIA issued National Flood Insurance Program (NFIP) Policy Issuance 5-95 which prohibited, under the NFIP, the practice of agents' rebating commissions to consumers. We now rescind Policy Issuance 5-95. Since October 4 interested parties from within and outside the insurance industry have expressed divergent views on how FIA should treat the issue of rebating agents' commissions. In light of the diversity of opinion on this issue, FIA has decided

to increase the circle of its advisers and to solicit comments and recommendations from a wider audience than before on the most appropriate policy on the rebating issue.¹

Dated: December 12, 1995.

Elaine A. McReynolds,
Federal Insurance Administrator.
