*Title:*73.158 Directional Antenna Monitoring Points.

*Form No.:*N/A.

*Type of Review:*Business or other for-profit.

*Number of Respondents:*80.

*Estimated Time Per Response:*4 hours.

*Total Annual Burden:*320 hours.

*Needs and Uses:*Section 73.158 requires a licensee of an AM station using a directional antenna system to file an informal application to modify their station license to specify a new location for the field monitoring point when circumstances occur which make the present location no longer accessible or unsuitable. Section 73.158 also requires the licensee to file a request for a corrected station license when the descriptive routing to reach any of the monitoring points as shown on the station license is no longer correct due to road or building construction or other changes. These filings provide up-to-date directions for use by the Complaints and Investigations Bureau's inspectors in accurately locating the monitoring points and obtaining field strength measurements relevant to the Commission's enforcement program aimed at keeping electromagnetic interference to a minimum.

*OMB Approval Number:*3060-0321.

*Title:*73.68 Sampling Systems for Antenna Monitoring.

*Total Annual Burden:*200 hours.

*Needs and Uses:*Section 73.68(b) requires that licensees of existing AM broadcast stations with antenna monitor sampling systems, meeting the

performance standards specified in the rules, may file informal requests for approval of their sampling systems. Section 73.68(d) requires that a request for modification of the station license be submitted to the FCC when the antenna sampling system is modified or components of the sampling system are replaced. The informal request for approval of sampling systems is used by FCC staff to maintain complete technical information regarding licensees to insure that the sampling system is in full compliance with the Commission's Rules and will not cause interference to other facilities, thus reducing the service provided to the public. The request for modification of station license is used to issue a new station license.
