The Secretary is still required to satisfy the requirement of sec. 706(b) of the WSMA to certify no degradation of service when she/he restructures a filed office. If the field office is located in an area of concern, the Secretary is required to provide all public comments relating to that area of concern to the Modernization Transition Committee during the certification process.

Obtaining Copies of the Secretary's Report: The Secretary's report consists of two volumes. Volume 1 provides the overall report and includes the methodology used by the Secretary's team and a summary of assessment results for each of the 32 areas of concern. Volume 2 consists of an individual package of information for each of the 32 areas of concern. Each package includes all the detailed information considered by the team in making its assessment of potential degradation of service. The report has been submitted to the U.S. Government Printing Office for printing. Copies should be available in February 1996. Distribution of Volume 1 is planned throughout NWS and to Congress and people who submitted the public comments that established the areas of concern. Volume 2 will be available by request only. If you would like a copy of Volume 1 and/or Volume 2 mailed to you, please specify which area(s) of concern you want and send your name and address to: National Weather Service, 1325 East-West Highway, Silver Spring, MD 20910-3283, Attn: Wx21-Patricia Daenecke.

In the interim, copies of the report are available to the public at centrally located libraries in each of the 32 areas of concern. A list of these libraries is attached to this notice.

Dated: December 7, 1995.
 Louis J. Boezi,
Deputy Assistant Administrator for Modernization.
