DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Notice of Availability of the Proposed Planning Criteria for Amending Idaho Land Use Plans for Rangeland Health Standards and Guidelines

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability of the proposed planning criteria for amending Idaho land use plans to adopt standards for rangeland health and guidelines for grazing management in Idaho and to adopt ecosystem-based management strategies from the Upper Columbia River Basin (UCRB) EIS.

SUMMARY: Pursuant to 43CFR 1610.4-2, the Bureau of Land Management, Idaho State Office, announces the availability of proposed planning criteria for amending Land Use Plans in Idaho to include standards and guidelines for Rangeland Health as directed in 43 CFR 4180.2. And to adopt ecosystem-based management strategies from the Upper Columbia River Basin (UCRB) EIS. The public is invited to review and comment on the proposed criteria.

DATES: Comments on the proposed criteria will be accepted through January 31, 1996.

ADDRESS: Comments should be sent to the Idaho State Director, Attn: Dave Brunner, 3380 Americana Terrace, Boise, Idaho 83706-2500. Copies of the proposed criteria may be obtained from and Idaho, BLM office.

SUPPLEMENTARY INFORMATION: Planning criteria, a requirement of the BLMB Planning Regulations, will guide the development of appropriate land use plan modifications and associated NEPA compliance documentation to incorporate standards and guidelines being developed to ensure rangeland

health (as required by BLM Grazing Regulations, 43 CFR Part 4, 1780 and 4100, effective August 21, 1995) and other appropriate recommendations which may be included in the Upper Columbia River Basin Environmental Impact Statement (UCRB EIS), currently being prepared. The following general planning criteria will be used for this process:

* All planning actions and decisions will consider the goals of BLM's Grazing Regulations; improve rangeland health, help build stable economies, and enhance stakeholder participation.

* All planning actions will ensure that the following established fundamentals for rangeland health are incorporated:

1. Watersheds are in, or are making significant progress toward properly functioning physical condition. 2. Ecological processes are maintained or there is significant progress toward their attainment. 3. Water quality complies with state water quality standards. 4. Habitats are, or are making significant progress, toward being restored or maintained for threatened or endangered species.

* Planning actions will be driven by the statements of purpose and need from the UCRB EIS and the NEPA compliance process used to analyze the proposed rangeland standards and guidelines.

* Standards proposed for incorporation into land use plans will be measurable and used to assess progress toward achieving the goals and fundamentals related to rangeland management.

* Planning actions will be responsive to the issues identified by the public during the UCRB EIS formal scoping process and other comments received concerning the development of rangeland standards and guidelines.

* Planning actions resulting from the UCRB EIS will be based upon the data provided in the Scientific Assessment for Ecosystem Management in the Interior Columbia River Basin and on other published, peer-reviewed scientific literature.

* The detail and specificity of the alternative management strategies will be limited to that necessary to address the identified needs for the action.

Dated: December 12, 1995.

J. David Brunner,

Deputy State Director for Resource Services.

[UT-910-06-1020-00]**Notice**

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent to prepare standards and guidelines, to modify land use plans, and prepare analyses pursuant to the National Environmental Policy Act.

SUMMARY: The Bureau of Land Management (BLM) in Utah intends to prepare Standards for Rangeland Health, Guidelines for Grazing Management, modifications to existing Land Use Plans, and to prepare appropriate National Environmental Policy Act (NEPA) documents for these actions according to BLM's new grazing regulations (43 CFR Part 4100). Public comment is sought on suggested standards and guidelines, and on the issues and alternatives to be considered. **DATES:** Comments will be accepted throughout this process or until further notice. Public comment periods specifically for the plan modification and NEPA process will be provided later.

FOR FURTHER INFORMATION CONTACT: Deane Zeller, Team Leader, Bureau of Land Management, Utah State Office, 324 So. State Street, Salt Lake City, UT 84111-2303; phone (801) 539-4052.

SUPPLEMENTARY INFORMATION: Pursuant to BLM's new grazing regulations (43 CFR Part 4100), which became effective August 21, 1995, BLM Utah intends to develop Standards and Guidelines (43 CFR Part 4180) through the BLM planning and NEPA process. It is uncertain at this point what level of plan modification or NEPA analysis will be conducted. Planning actions may be plan maintenance, plan amendment, or new plan preparation. NEPA actions may be an Administrative Determination (that an EA/EIS is not needed), Categorical Exclusion (CX), an Environmental Assessment (EA), or an Environmental Impact Statement (EIS). All Land Use Plans for public lands in the State of Utah may be affected.

Public comments and opinions are solicited and encouraged. Public meetings will be held—information to be announced later. Guidance will be sought from the Utah BLM Resource Advisory Council, user groups, local leaders, and the public at large.

Issues preliminarily identified are: the effect of the proposed standards and guidelines on public land grazing operations, public land values, and other uses of the public lands.

Alternatives identified at this time include adoption of the Fallback

Standards and Guidelines specified in the new grazing regulations, adoption of new Standards and Guidelines specific to Utah, or continuation of current management under existing land use plans (where such plans are in conformance with the Fallback Standards and Guidelines) accompanied by incremental implementation of new Standards and Guidelines on priority areas.

Roger Zortman,

Acting State Director, Utah.

AGENCY: Bureau of Land Management, DOI.

ACTION: Notice of intent to amend management framework plan.

SUMMARY: The Bureau of Land Management (BLM) is preparing an Environmental Assessment (EA) to consider a proposed amendment to the Park City Management Framework Plan (MFP). The proposed amendment would consider alternatives for additional opportunities for land tenure adjustments in Summit County.

DATES: The comment period for identification of issues for the proposed plan amendment will commence with the date of publication of this notice. Comments must be submitted on or before January 18, 1996.

FOR FURTHER INFORMATION CONTACT: Leon Berggren, Bear River Resource Area Manager, Bureau of Land Management, Salt Lake District, 2370 South 2300 West, Salt Lake City, UT 84119, telephone (801) 977-4300. Existing planning documents and information are available at the above address or telephone (801) 977-4300. Comments on the proposed plan amendment should be sent to the above address.

SUPPLEMENTARY INFORMATION: The Bear River Resource Area of the Salt Lake District, BLM, is proposing to amend the Park City MFP to allow for land tenure adjustments on T. 2 S., R. 3 E., Section 10, NE¼ not previously identified in the MFP. The main purpose is to identify and analyze the land for exchange to the State of Utah for acquisition of lands that results in a net gain of important and manageable resource values on public land. Lands transferred out of Federal ownership to State interests, as a result of the exchange, would be available to meet the various needs of the respective

parties. Where there are specific uses proposed on lands identified for exchange, those uses will be analyzed. An environmental assessment (EA) will be prepared to analyze the impacts of this proposed plan amendment and alternatives.

Public participation is being sought at this initial stage in the planning process to ensure the MFP amendment addresses all issues, problems and concerns from those interested in the management of lands within the Bear River Resource Area. Necessary amendments to the approved plan will keep the document current and viable.

David E. Little,

Acting State Director.
