

ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before January 18, 1996.

FOR FURTHER INFORMATION OR A COPY

CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1100.08.

SUPPLEMENTARY INFORMATION:

Title: National Emission Standards for Hazardous Air Pollutant (OMB Control No. 2060-0191; EPA ICR No. 1100.08). "This is a request for extension of a currently approved collection."

Abstract: On December 15, 1989 pursuant to Section 112 of the Clean Air Act as amended in 1977 (42 U.S.C. 1857), the Environmental Protection Agency promulgated NESHAPs to control radionuclide emissions from several source categories. The regulations were published in 54 FR 51653, and are codified at 40 CFR Subparts B, H, I, K, R, T, and W, and imposes the following radionuclide dose and emission standards: Subpart B—Underground Uranium Mines

10 mrem/yr

Subpart H—Department of Energy

10 mrem/yr, 20 pci/m²-s

Subpart I—Non-DOE not licensed by NRC

10 mrem/yr, 3 mrem/yr; iodine

Subpart I—Licensed by NRC

10 mrem/yr, 3 mrem/yr iodine

Subpart K—Elemental Phosphorous

2 curies/yr

Subpart R—Phosphogypsum Stacks

20 pci/m²-s

Subparts T and W—Uranium Mill

Tailings Piles

20 pci/m²-s

Information collected is used by EPA to ensure that public health continues to be protected from the hazards of airborne radionuclides by compliance with these. If the information were not collected, it is unlikely that violation of the standards would be identified and no corrective action would be initiated to bring the facilities back into compliance. Compliance is demonstrated through emission testing and/or dose calculation. Results are submitted to EPA Regional office annually or when required for verification of compliance and maintained for a period of 5 years.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed

in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 08/25/95 (FR Doc. 95-21169).

Burden Statement: The annual public reporting and Record keeping burden for this collection of information is estimated to average 31 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 6112.

Estimated Number of Respondents: 412.

Frequency of Responses: Annually or less than annually.

Estimated Total Annual Hour Burden: 188,708 hours.

Estimated Total Annualized Cost Burden: \$1,758,559.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1100.08 and OMB Control No. 2060-0191 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2136), 401 M Street, SW., Washington, DC 20460.

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

Dated: December 5, 1995.

Joseph Retzer,

Director, Regulatory Information Division.

Agency Information Collection Activities Under OMB Review; EPA Indoor Environmental Quality Questionnaire

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) for "EPA Indoor Environmental Quality Questionnaire" abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before January 18, 1996.

FOR FURTHER INFORMATION OR A COPY

CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1619.02.

SUPPLEMENTARY INFORMATION:

Title: EPA Indoor Environmental Quality Survey (OMB Control No. 2060-0244; EPA ICR No. 1619.02). This is a request for an extension of a currently approved collection.

Abstract: The Indoor Environmental Quality Questionnaire is a component of the EPA Building Assessment Survey and Evaluation (BASE) program. In this program, EPA is conducting an indoor air quality (IAQ) study of 100-200 large commercial and public office buildings. The purpose of this study is to develop a national baseline assessment of the indoor air in such buildings. The activities EPA will conduct under this survey include Indoor Environmental Quality Questionnaire, building inspections, interviews with building maintenance workers, environmental measurements (e.g., ventilation rates, concentrations of indoor air pollutants), and other quantitative and qualitative assessments. By conducting this research, EPA will begin to be able to assess the key building parameters that affect IAQ and the incidence of certain IAQ-related health and comfort problems. The Indoor Environmental Questionnaire is a voluntary questionnaire asking for information pertaining to work station characteristics, working conditions, exposure to pollutants, health and well-being, and stress. Data from the Indoor Environmental Questionnaire will be used to compare the measured building parameters and health effects.

EPA has piloted this study in three buildings and has conducted the study in 29 other buildings to date.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 13, 1995 (FRL-5295-7).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 14 minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Occupants of commercial facilities in a wide variety of fields and SIC codes.

Estimated Number of Respondents: 2800.

Frequency of Response: One-time.

Estimated Total Annual Hour Burden: 654 hours.

Estimated Total Annualized Cost Burden: \$14,720.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1619.02 and OMB Control No. 2060-0244 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2136), 401 M Street, SW, Washington, DC 20460.
and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA 725 17th Street, NW, Washington, DC 20503.

Dated: December 7, 1995.

Joseph Retzer,

Director, Regulatory Information Division.

Common Sense Initiative Council (CSIC)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification of Public Advisory CSIC Automobile Manufacturing, Iron and Steel, and Computers and Electronics Sector Subcommittee Meetings; Open Meetings.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that, pending resolution of EPA's FY 1996 appropriation, the Automobile Manufacturing, Iron and Steel, and Computers and Electronics Sector Subcommittees of the Common Sense Initiative Council will meet on the dates and times described below. All meetings are open to the public. Seating at meetings will be on a first-come basis. For further information concerning specific meetings, please contact the individuals listed with the three Sector Subcommittee announcements below.

(1) Automobile Manufacturing Sector Subcommittee—January 10, 1996

The Common Sense Initiative Council, Automobile Manufacturing Sector Subcommittee (CSIC-AMS), pending resolution of EPA's FY 1996 appropriation, is convening an open meeting on January 10, 1996. The meeting will begin at approximately 9:30 a.m. EST and run until about 3:30 p.m. EST. The meeting will be held at the Summit Building, 10th floor conference room 10A and 10B, 410 West Peachtree Street, Atlanta, Georgia.

The CSIC-AMS has formed three project teams: Regulatory Initiatives, Alternative Sector Regulatory System/Community Technical Assistance and Life Cycle Management/Supplier Partnership. The Regulatory Initiatives project team's most recent meetings have focused on issues within the Clean Air Act's New Source Review Program. The Alternative Sector Regulatory System/Community Technical Assistance project team is currently identifying and discussing principles and attributes desirable in a new alternative regulatory system. The Life Cycle Management/Supplier Partnership project team has identified a portion of the supply chain to participate in the development of a

framework for a supplier partnership that encourages the consideration of environmental impacts in product development. The project teams will report progress on these ongoing projects and present deliverables, if applicable.

Seating may be limited; therefore, advance registration is recommended. An Agenda will be available January 5, 1996. Any person or organization interested in attending the meeting should contact Ms. Carol Kemker, Designated Federal Official (DFO), no later than January 8, 1996, at (404) 347-3555 extension 4222. Each individual or group wishing to make oral presentations will be allowed a total of three minutes. For further meeting information contact Carol Kemker, DFO on (404) 347-3555 extension 4222, or Keith Mason, Alternate DFO, on (202) 260-1360.

(2) Iron and Steel Sector Subcommittee—January 18, 1996

Notice is hereby given that the Environmental Protection Agency, pending resolution of its FY 1996 appropriation, is convening an open meeting of the Iron and Steel Sector Subcommittee on Thursday, January 18, 1996. The meeting will begin at 8:00 a.m. CST and run until 4:00 p.m. CST. It will be held at the Metcalf Federal Building, Great Lakes Conference Center, Lake Michigan room (12th floor), 77 West Jackson Boulevard, Chicago, Illinois, telephone number 312-886-9494. A picture identification will be needed to enter the building. Seating will be available on a first come, first served basis. Limited time will be provided for public comment.

The Iron and Steel Subcommittee has created four work groups which are responsible for proposing to the full Subcommittee, for its review and approval, potential activities or projects that the Iron and Steel Sector Subcommittee will undertake, and for carrying out projects once approved. The Subcommittee has approved seven projects and their work plans, and is considering several others. The purpose of the January meeting is to discuss in detail the status of projects sponsored by the Compliance and the Innovative Technology work groups, to hear brief status updates from the Permits and Brownfields work groups, to discuss a potential community involvement project, and to discuss the role of pollution prevention in the industry.

For further information regarding this Iron and Steel Sector Subcommittee Meeting, please call either Ms. Mary Byrne at 312-353-2315 in Chicago,
