

authorized, among other things, to abandon the firm transportation of 200,000 Mcf per day (Mcf/d) of ANGTS prebuild-related gas for Northern and provide the equivalent firm transportation for PAG-US pursuant to a U.S. Shipper Service Agreement dated October 1, 1993 (1993 Service Agreement). Northern Border further states that the supply of 200,000 Mcf/d together with an additional 100,000 Mcf/d of ANGTS prebuild-related gas associated with the 1989 Service Agreement which Northern was entitled to purchase from PAG-US, was made available for purchase by the LDCs from PAG-US through the reverse auction. PAG-US now sells 300,000 Mcf/d of ANGTS prebuild-related gas to 18 LDCs in the midwest and utilizes both the 1989 and 1993 Service Agreements to deliver these volumes to the LDCs at points of interconnection between the facilities of Northern Border and Northern.

(2) The payment of an Adjustment Amount which reflects the difference in price paid using the existing Index Price (*i.e.*, 100% San Juan Basin Price) and the price which would have been paid using the redetermined Index Price (*i.e.*, San Juan Basin Price and 5% Permian Basin Price) for the period from November 1, 1995, to the effective time of the tariff change.
