ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene public meetings.

DATES: These meetings will be held January 8–12, 1996, January 15–19, 1996, and January 22–26, 1996, from 8:30 a.m. to 5:00 p.m.

ADDRESSES: The meetings on January 8–12, 1996, and January 15–19, 1996, will be held at the New Orleans Airport Hilton, 901 Airline Highway, Kenner, LA; telephone: 504-469-5000. The meeting on January 22–26, 1996, will be held at the Corpus Christi Marriott Bayfront Hotel, 900 North Shoreline Boulevard, Corpus Christi, TX; telephone: 512-887-1600.

Council address: Gulf of Mexico Fishery Management Council, 5401 West Kennedy Boulevard, Suite 331, Tampa, FL 33609.

FOR FURTHER INFORMATION CONTACT: Wayne Swingle, Executive Director; telephone: 813-228-2815.

SUPPLEMENTARY INFORMATION: The Red Snapper Individual Transferable Quota (ITQ) Appeals Board established by the Council will meet at each site (see **ADDRESSES**) to review appeals of commercial red snapper fishermen who dispute landings and other information used to assign to them ITQ shares of the commercial red snapper quota.

Owners and operators of permitted reef fish vessels have been notified by NMFS of the appeals processes and the

requirement to submit a written appeal setting forth the nature of the dispute and attaching copies of relevant records. NMFS also provided each owner and/or operator with an estimate of his or her ITQ share and the 1990–91 landings records upon which the share was based, and relevant records for “historical captain” status that would entitle that person to a share. Persons filing written appeals with NMFS by December 27, 1995, will be offered an opportunity to testify before the appeals board and will be notified by the Council of the times and places of reviews of their appeals.

A copy of each written appeal and the appended information will be provided to each member of the appeals board and summarized by Council/NMFS staffs. The board members will then discuss the case, hear testimony from persons making the appeals, and individually fill out forms recommending (1) approval of an appeal, (2) denial of the appeal, or (3) abstention on the issue. The completed forms will be provided by the Council representative daily by mail to the Director, Southeast Region, in St. Petersburg, FL for final decisions on granting the appeals.

Special Accommodations

The meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at the Council (see **ADDRESSES**) by December 29, 1995.

Dated: December 18, 1995.

Richard W. Surdi,

2. The action will not have a severe economic impact on current contractors for the commodities, military resale commodities and services.

3. The action will result in authorizing small entities to furnish the commodities, military resale commodities and services to the Government.

The Department proposes to establish a medical isotope production project that would ensure a reliable domestic supply of molybdenum-99 (Mo-99) and related medical isotopes (iodine-125, iodine-131, and xenon-133). Mo-99 decays to form technetium-99m (Tc-99m), an important medical isotope. Radioactive isotopes are used in more than 38,000 diagnostic medical procedures each day in the United States. Tc-99m is used in over 80 percent of these procedures.

The United States medical community now relies on a single small nuclear reactor in Canada for its entire supply of Mo-99. The near term goal of
