

military resale commodities and services proposed for addition to the Procurement List.

Accordingly, the following commodities, military resale commodities and services are hereby added to the Procurement List:

Commodities

Carrying Cover, Arch
8340-00-556-9674

Military Resale Commodities

Pillow, Fiber Fill
M.R. 764
M.R. 765
M.R. 766

Services

Data Entry/Data Base Management,
General Services Administration,
Federal Supply Service Bureau,
Washington, DC

Grounds Maintenance
Defense Finance and Accounting
Service, Building 951, 1111 East Mill
Street, San Bernadino, California

Grounds Maintenance
Marine Corps Support Activity,
Richards-Gebaur Memorial Airport,
Kansas City, Missouri
Janitorial/Custodial for the following
Springfield, Illinois locations:

Paul Findley Federal Building, 600 E.
Monroe Street

Sarah Cook House, 508 S. 8th Street
Henson Robinson House, 520 S. 8th
Street

Janitorial/Custodial for the following
Albuquerque, New Mexico locations:

Petroglyph National Monument
Headquarters, 6001 Unser Boulevard
NW, Petroglyph National Monument
Visitor Center and Ranger Station,
4735 Unser Boulevard

Janitorial/Custodial
Letterkenny Army Depot,
Chambersburg, Pennsylvania

Laundry Service
Naval Air Station, North Island,
Bachelor Enlisted Quarters and
Bachelor Officer Quarters, San Diego,
California

Recycling Service
Westover Air Reserve Base, Chicopee,
Massachusetts

Recycling Service
McGuire Air Force Base, New Jersey
Storage/Distribution of Clothing & Other
Items

Corporation for National Service,
Americorps, Washington, DC

Switchboard Operation
Samuel S. Stratton Veterans Affairs
Medical Center, Albany, New York

Toner Cartridge Remanufacturing, Naval
Training Center, Great Lakes, Illinois

This action does not affect current contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,

Executive Director.

BILLING CODE 6820-33-P

DEPARTMENT OF ENERGY

Medical Isotopes Production Project: Molybdenum-99 and Related Isotopes Availability of Draft Environmental Impact Statement and Public Hearings

AGENCY: Department of Energy.

ACTION: Notice of availability and public hearings.

SUMMARY: The Department of Energy (DOE) announces the availability of the Medical Isotopes Production Project: Molybdenum-99 and Related Isotopes Draft Environmental Impact Statement (Draft EIS), DOE/EIS-0249D, for public review and comment. DOE also announces the dates, times, and locations for public hearings on the Draft EIS. The alternative facilities for the proposed project that are analyzed in the Draft EIS are located at the Idaho National Engineering Laboratory near Idaho Falls, Idaho; Sandia National Laboratories/New Mexico in Albuquerque, New Mexico; Los Alamos National Laboratory in Los Alamos, New Mexico; and Oak Ridge National Laboratory in Oak Ridge, Tennessee.

DATES: DOE filed the Draft EIS with the U.S. Environmental Protection Agency on December 15, 1995, with an expected Federal Register publication date for the notice of availability of December 22, 1995. Written comments on the Draft EIS are invited from the public. Comments must be postmarked by February 9, 1996, to ensure consideration; comments postmarked after that date will be considered to the extent practicable. The DOE will use the comments received to help prepare the final version of the EIS. Public hearings on the Draft EIS will be held as follows:

Idaho National Engineering
Laboratory—January 17, 1996, 1:00
p.m. to 4:00 p.m. and 7:00 p.m. to
10:00 p.m., Shilo Inn, 780 Lindsay
Boulevard, Idaho Falls, ID 83402

Oak Ridge National Laboratory—January
25, 1996, 1:00 p.m. to 4:00 p.m. and
7:00 p.m. to 10:00 p.m., Pollard
Auditorium, 210 Badger Avenue, Oak
Ridge, TN 37830

Sandia National Laboratories/New
Mexico—January 30, 1996, 1:00 p.m.
to 4:00 p.m. and 7:00 p.m. to 10:00

p.m., Indian Pueblo Cultural Center,
Main Auditorium, 2401 12th Street,
Albuquerque, NM, 87104
Los Alamos National Laboratory—
February 1, 1996, 1:00 p.m. to 4:00
p.m. and 7:00 p.m. to 10:00 p.m.,
Fuller Lodge, Pajarito Room, 2132
Central Avenue, Los Alamos, NM
87544.

The meetings will provide opportunities for information exchange and discussion as well as for the submittal of prepared statements.

ADDRESSES: Requests for copies of the Draft EIS, written comments on the Draft EIS, or other matters regarding this environmental review should be addressed to: Mr. Wade Carroll, EIS Project Manager, NE-70, U.S. Department of Energy, 19901 Germantown Road, Germantown, MD 20874-1290. Mr. Carroll may be contacted by telephone at (301) 903-7731, facsimile (301) 903-5434.

FOR FURTHER INFORMATION CONTACT: For general information on the DOE NEPA process, please contact: Ms. Carol Borgstrom, Director, Office of NEPA Policy and Assistance, EH-42, U.S. Department of Energy, 1000 Independence Ave. SW, Washington, D.C. 20585. Ms. Borgstrom may be contacted by leaving a message at (800) 472-2756 or by calling (202) 586-4600. For general information on the DOE isotope production program, please contact: Mr. Owen W. Lowe, Associate Director, Office of Isotope Production and Distribution, NE-70, U.S. Department of Energy, 19901 Germantown Road, Germantown, MD 20874-1290. Mr. Lowe may be contacted by calling (301) 903-5161.

SUPPLEMENTARY INFORMATION: The Draft EIS was prepared pursuant to the National Environmental Policy Act of 1969 (NEPA) [42 U.S.C. 4321 et seq.], the Council on Environmental Quality's NEPA regulations [40 CFR Parts 1500-1508] and the DOE NEPA regulations [10 CFR Part 1021].

The Department proposes to establish a medical isotope production project that would ensure a reliable domestic supply of molybdenum-99 (Mo-99) and related medical isotopes (iodine-125, iodine-131, and xenon-133). Mo-99 decays to form technetium-99m (Tc-99m), an important medical isotope. Radioactive isotopes are used in more than 38,000 diagnostic medical procedures each day in the United States. Tc-99m is used in over 80 percent of these procedures.

The United States medical community now relies on a single small nuclear reactor in Canada for its entire supply of Mo-99. The near term goal of

DOE is to provide a backup capability to supply a baseline production level of 10 to 30 percent of current United States demand for Mo-99. The near term goal also includes establishing the capability to supply 100 percent of the United States demand for Mo-99 should the existing Canadian source be unavailable. The baseline capability would maintain the capabilities of the facilities and staff needed to respond on short notice to supply the entire United States demand if necessary.

It is the Department's position that, in the long-term, the domestic production of Mo-99 should be conducted by the private sector. The Department encourages the development of private sources in the United States for the production of Mo-99, and would phase out production if a private source begins to produce Mo-99 reliably. The long-term domestic production of Mo-99 by private sources is not within the scope of this EIS.

The Draft EIS analyzes the environmental consequences of alternative ways to accomplish the proposed action. The Department's preferred alternative would be to modify and operate the Annular Core Research Reactor and associated hot cell facility at Sandia National Laboratories/New Mexico and the Chemistry and Metallurgy Research facility at Los Alamos National Laboratory to produce Mo-99 and related medical isotopes. The Draft EIS also analyzes the environmental impacts of producing Mo-99 using the Omega West reactor at Los Alamos National Laboratory, the Power Burst Facility at Idaho National Engineering Laboratory, and the Oak Ridge Research Reactor at Oak Ridge National Laboratory, as well as the impacts of not establishing a Mo-99 production source (the No Action alternative).

DOE has distributed copies of the Draft EIS to appropriate Congressional members and committees, the States of Idaho, New Mexico, and Tennessee, American Indian tribal governments, local county governments, other federal agencies, and other interested parties. Additional copies are available as indicated above.

Signed in Washington, D.C., this 18th day of December, 1995, for the United States Department of Energy.

Ray A. Hunter,

Deputy Director, Office of Nuclear Energy, Science and Technology.

BILLING CODE 6450-01-P

Federal Energy Regulatory Commission and the Puerto Rico Planning Board

EcoEléctrica, L.P.; Notice of Comment Period Extension

December 15, 1995.

Due to comments received on the Draft Environmental Impact Statement/Preliminary Environmental Impact Statement for the proposed EcoEléctrica LNG Import Terminal and Cogeneration Project in Guayanilla, Puerto Rico, the comment period is extended from December 26, 1995 to January 23, 1996.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-M

[Project No. 2413-026 Georgia]

Georgia Power Company; Notice of Availability of Environmental Assessment

December 18, 1995.

An environmental assessment (EA) is available for public review. The EA is for an application to amend the license for the Wallace Project. The application is to exchange approximately 500 acres of project lands for approximately 500 acres of non-project lands located on the shores of Lake Oconee. The EA finds that approval of the application would not constitute a major Federal action significantly affecting the quality of the human environment. The Wallace Project is located on the Oconee River in Greene and Putnam Counties, Georgia.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA are available for review at the Commission's Reference and Information Center, Room 2-A, 888 First Street, NE., Washington, DC 20426. Copies can also be obtained by calling the project manager listed below.

Please submit any comments within 20 days of the date of this notice. Comments should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. Please affix the project number to all comments. For further information, please contact the project manager, Jon Cofrancesco at (202) 219-0079.

Lois D. Cashell,
Secretary.

BILLING CODE 6717-01-M

[Project Nos. 2433-004-MI/WI, 2357-003-MI/WI, 2394-006-MI/WI, 2536-009-MI/WI]

Wisconsin Public Service Corporation, et al.; Notice of Intent to Hold Public Meetings in Marinette, Wisconsin to Discuss the Draft Environmental Impact Statement (DEIS) for the Proposed Relicensing of the Grand Rapids, Chalk Hill, White Rapids, and Little Quinnesec Hydroelectric Projects

December 18, 1995.

On November 22, 1995, the Commission staff mailed the DEIS to the Environmental Protection Agency, resource and land management agencies, and interested organizations and individuals. This document evaluates the environmental consequences of the proposed relicensing of the Grand Rapids, White Rapids, Chalk Hill, and Little Quinnesec Hydroelectric Projects. The projects are located on the lower Menominee River in Menominee and Dickinson Counties, Michigan and Marinette County, Wisconsin.

Two public meetings will be recorded by a court reporter and are scheduled to be held at 1 p.m. and 7 p.m. on Thursday, January 4, 1996, at the Best Western Riverfront Inn, 1821 Riverside Avenue, Marinette, Wisconsin. You are invited to attend either or both public meetings.

At the meetings, Commission Staff will summarize major DEIS findings and recommendations. Resource agency personnel and other interested persons will have an opportunity to submit oral and written comments on the DEIS for the Commission's public record. Written comments on the DEIS may also be sent to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426. Comments must be received on or before January 16, 1995. All correspondence should include the project name and number on the first page of the correspondence.

The DEIS considers recommendations of government agencies, nongovernmental organizations, affected Indian tribes, the public, the license applicants, and the Commission's staff. It evaluates natural and social resource benefits, the economic costs, and the project-specific and cumulative environmental impacts associated with relicensing the projects.

Lois D. Cashell,
Secretary.
