As a Potential Respondent

A. Are the instructions and definitions clear and sufficient? If not, which instructions require clarification?

B. Can data be submitted in accordance with the due date specified in the instructions?

C. Public reporting burden for this collection is estimated to average:

35 minutes per household for Form EIA-457A (2,000 in-person interviews at 45 minutes each and 4,500 telephone interviews at 30 minutes each),

20 minutes per household for Form EIA-457B,

E. Do you know of any other Federal, State, or local agency that collects similar data? If you do, specify the agency, the data element(s), and the methods of collection.

As a Potential User

B. For what purpose would you use the data? Be specific.

C. Are there alternate sources of data and do you use them? What are their deficiencies and/or strengths?

D. For the most part, information is published by EIA in U.S. customary units, e.g., cubic feet of natural gas, short tons of coal, and barrels of oil. Transcontinental Gas Pipe Line Corporation; Notice of Proposed Changes in FERC Gas Tariff

December 26, 1995.

Take notice that on December 19, 1995, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing certain revised tariff sheets to its FERC Gas Tariff's, Third Revised Volume No. 1 and Original Volume No. 2, which tariff sheets are listed in Appendix A to the filing. The tariff sheets are proposed to be effective as indicated on Appendix A.

Transco states that the purpose of the instant filing is to comply with the Commission's December 4, 1995, order in the referenced proceeding which directed Transco to refile its rates to be effective September 1, 1995 to eliminate from its filed cost of service any ad valorem taxes associated with the gas plant Transco removed in its Motion filing of August 31, 1995 (Motion filing).

In Transco's Motion filing, Transco reflected actual cost of gas plant in service as of August 31, 1995, which costs included an estimate of the actual amounts expected to be closed to gas plant in service during the month of August since such amounts were not known at the time of the filing. In the instant filing, in addition to revising its ad valorem taxes, Transco has revised its gas plant to reflect actual gas plant in service and accumulated reserve for depreciation as of August 31, 1995. In addition to the foregoing, Transco has made corresponding adjustments to ad valorem taxes, operation and maintenance expenses, depreciation expense, return and income taxes. The total cost of service reflected herein represents a \$1.1 MM reduction from the total cost of service underlying Transco's Motion filing.

Transco states that copies of the instant filing are being mailed to customers, State Commissions and other interested parties.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC

20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. Pursuant to Section 154.210 of the Commission Regulations, all such protests must be filed not later than 12 days after the date of the filing noted above. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
