January 3, 1996.

Trunkline states that the revised tariff sheets are being submitted in order to expand the opportunities to shippers (or their designees) to satisfy the annually elected processing requirements currently contained in Trunkline's tariff by arranging for satisfactory dehydration of gas onshore. The revision is desirable because third party dehydration facilities may become available to Trunkline's shippers, at least some of

Trunkline states that a copy of this filing was mailed to affected shippers and interested state regulatory agencies.
