From this list and additional items that are recommended, NIOSH anticipates producing a final agenda of 15–25 of the highest scientific priorities for research to advance safety and health.

NIOSH is seeking public comment until March 6, 1996, to assure that the final agenda includes input from the broadest base of occupational safety and health expertise. In addition to the two working group meetings described in this announcement and the working group meeting held on December 12, 1995, the process for receipt of public comment includes the following elements: (1) Corporate and worker liaison committees and a broader-based stakeholders outreach committee will assist NIOSH in obtaining involvement and input from employers, employees, health officials, health professionals, scientists, and public health, advocacy, scientific, industry and labor organizations; (2) A public meeting was held on November 30, 1995, to obtain early input on the research priorities, criteria for selection of priorities, and the process for developing the agenda; (3) Regional public meetings will be held in Chicago, Boston and Seattle to increase the opportunities for input from employers, employees, scientists, and other public stakeholders across the United States; (4) A final public meeting will be held on March 1, 1996, in Washington, DC, to present a draft research agenda and provide the opportunity for public review and comment; and (5) Public input throughout the process; the public is encouraged to provide oral comments at the public meetings, and written comments as soon as possible. The last date for submission of public comments is close of business, March 6, 1996.

The final agenda will be presented at a scientific symposium commemorating the 25th anniversary of the Occupational Safety and Health Act on April 29, 1996.

NIOSH encourages the public to provide recommendations on research priorities, criteria for determining priorities, and the process of developing the research agenda throughout the process. To attend these meetings, or to receive additional

information, please contact Mr. Chris Olenec as indicated below. On-site registration will be available; however, to assist in planning for the meeting, advance registration is requested.

ADDRESSES: Written public comments on the National Occupational Research Agenda should be mailed to Ms. Diane Manning, NIOSH, CDC, Robert A. Taft Laboratories, M/S C34, 4676 Columbia Parkway, Cincinnati, Ohio 45226.
