

appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

**ADDRESSES:** Comments are to be submitted to the Docket Office, Docket ICR-95-6, U.S. Department of Labor, Room N-2625, 200 Constitution Avenue, NW., Washington, DC 20210, (202) 219-7894. Written comments limited to 10 pages or less may be transmitted by facsimile to (202) 219-5046.

**FOR FURTHER INFORMATION CONTACT:**

Anne C. Cyr, Office of Information and Consumer Affairs, Occupational Safety and Health Administration, U.S. Department of Labor, Room N3647, 200 Constitution Avenue, NW., Washington, DC 20210, (202) 219-8148. Copies of the referenced information collection request are available for inspection and copying in the Docket Office and will be mailed immediately to persons who request copies by telephoning Vivian Allen at (202) 219-8076. For electronic copies, contact the Labor News Bulletin Board (202) 219-4784; or OSHA's WebPage on Internet at <http://www.osha.gov/>.

**SUPPLEMENTARY INFORMATION:**

**Background**

The Occupational Safety and Health Administration (OSHA) currently has approval from the Office of Management and Budget (OMB) for certain information collection requirements contained in 29 CFR 1910.119. That approval will expire on June 30, 1996, unless OSHA applies for an extension of the OMB approval. This notice initiates the process for OSHA to request an extension of the current OMB approval.

As part of OMB's and OSHA's continuing paperwork reduction effort, OSHA seeks to reduce the paperwork burden hours in 29 CFR 1910.119 based on input from parties interested in the regulatory scope of that regulation. The purpose of this notice is to solicit public comment on OSHA's existing paperwork burden estimates from those interested parties and to seek public response to several questions related to the development of OSHA's estimates. Interested parties are requested to review OSHA's estimates which are based on information available during rulemaking, and to comment on their accuracy or appropriateness in today's workplace situation. OSHA bases its existing estimates upon information made available to the agency during the initial rulemaking effort for 29 CFR 1910.119 (February 24, 1992, 57 FR

6356); and is interested in learning whether it is outdated.

**Current Action**

This notice requests an extension of the current OMB approval of the paperwork requirements in 29 CFR 1910.119, Process Safety Management of Highly Hazardous Chemicals.

*Type of Review:* Extension of existing approval.

*Agency:* Occupational Safety and Health Administration, U.S. Department of Labor.

*Title:* Process Safety Management of Highly Hazardous Chemicals.

*OMB Number:* 1218-0200.

*Agency Number:* Docket No. ICR-95-6.

*Frequency:* On Occasion.

*Affected Public:* Business or other for-profit.

*Number of Respondents:* 24,939.

*Estimated Time Per Respondent:* 5,419.

*Total Burden Hours:* 135,147,788.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: December 12, 1995.

Thomas H. Seymour,

*Acting Director, Directorate of Safety Standards Programs.*

**BILLING CODE 4510-26-M**

**NATIONAL INSTITUTE FOR LITERACY**

**Notice of Meeting**

**AGENCY:** National Institute for Literacy Advisory Board, National Institute for Literacy.

**SUMMARY:** This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the National Institute for Literacy Advisory Board (Board). This notice also, describes the function of the Board. Notice of this meeting is required under Section 10(a)(2) of the Federal Advisory Committee Act. This document is intended to notify the general public of their opportunity to attend the meeting.

**DATE AND TIME:** February 9, 1996.

**ADDRESSES:** National Institute for Literacy, 800 Connecticut Avenue, NW., Suite 200, Washington, DC 20006.

**FOR FURTHER INFORMATION CONTACT:** Carolyn Staley, Deputy Director, National Institute for Literacy, 800 Connecticut Avenue, NW., Suite 200, Washington, DC 20006. Telephone number (202) 632-1526.

**SUPPLEMENTARY INFORMATION:** The Board is established under Section 384 of the Adult Education Act, as amended by Title I of Public Law 102-73, the National Literacy Act of 1991. The Board consists of ten individuals appointed by the President with the advice and consent of the Senate. The Board is established to advise and make recommendations to the Interagency Group, composed of the Secretaries of Education, Labor, and Health and Human Services, which administers the National Institute for Literacy (Institute). The Interagency Group considers the Board's recommendations in planning the goals of the Institute and in the implementation of any programs to achieve the goals of the Institute. Specifically, the Board performs the following functions: (a) Makes recommendations concerning the appointment of the Director and the staff of the Institute; (b) provides independent advice on operation of the Institute; and receives reports from the Interagency Group and Director of the Institute. In addition, the institute consults with the Board on the award of fellowships. The Board will meet in Washington, DC on February 9, 1996 from 9:00 a.m. to 4:00 p.m. The meeting of the Board is open to the public. The agenda includes discussion of Interagency Group Representatives updating Advisory Board on the status of block grants affecting literacy and the Advisory Board will review current spending plan and discuss priorities for the next fiscal year. Records are kept of all Board proceedings and are available for public inspection at the National Institute for Literacy, 800 Connecticut Avenue, NW., Suite 200, Washington, DC 20006 from 8:30 a.m. to 5:00 p.m.

Dated: January 16, 1996.

Andrew J. Hartman,

*Executive Director, National Institute for Literacy.*

**BILLING CODE 6055-01-M**

**NUCLEAR REGULATORY COMMISSION**

**Documents Containing Reporting or Recordkeeping Requirements; Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review**

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 32, Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material.

2. Current OMB Approval Number: 3150-0001

3. How often the collection is required: There is a one-time submittal of information to receive a license. Renewal applications are submitted every 5 years. In addition, recordkeeping must be performed on an on-going basis, and reports of transfer of byproduct material must be reported every 5 years.

4. Who is required or asked to report: All specific licensees who manufacture or initially transfer items containing byproduct material for sale or distribution to general licensees or persons exempt from licensing.

5. The number of annual respondents: 265 NRC licensees and 333 Agreement State licensees.

6. The number of hours needed annually to complete the requirement or request: 53,333 hours or 201.26 hours per NRC licensee and 95,306.9 hours or 286.21 hours per Agreement State licensee. The difference in individual licensee burden between NRC and Agreement States is due to the fact that a higher percentage of the Agreement State licensees are nuclear pharmacies, which have a large recordkeeping burden because of the labeling requirements for radiopharmaceuticals.

7. Abstract: 10 CFR Part 32 establishes requirements for specific licenses for the introduction of byproduct material into products or materials and transfer of the products or materials to general licensees or persons exempt from licensing. It also prescribes requirements governing holders of the specific licenses. Some of the requirements are information which must be submitted in an application for a specific license, records which must be kept, reports which must be submitted, and information which must be forwarded to general licensees and persons exempt from licensing. In addition, 10 CFR Part 32 prescribes requirements for the issuance of certificates of registration (concerning radiation safety information about a product) to manufacturers or initial transferors of sealed sources and devices. Submission or retention of the

information is mandatory for persons subject to the 10 CFR Part 32 requirements. The information is used by NRC to make licensing and other regulatory determinations concerning the use of radioactive byproduct material in products and devices.

Submit, by March 22, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW, (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access this document via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library), NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 F33, Washington, DC, 20555-0001, or by telephone at (301) 415-7233, or by Internet electronic mail at BJS1@NRC.GOV.

Dated at Rockville, Maryland, this 11th day of January, 1996.

For the Nuclear Regulatory Commission,  
Gerald F. Cranford,  
*Designated Senior Official for Information Resources Management.*

BILLING CODE 7590-01-P

[Docket No. 50-213]

**Connecticut Yankee Atomic Power Company; Haddam Neck Plant; Environmental Assessment and Finding of No Significant Impact**

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-61, issued to Connecticut Yankee Atomic Power Company (CYAPCO, the licensee), for operation of the Haddam Neck Plant, located in Middlesex County, Connecticut.

Environmental Assessment

*Identification of the Proposed Action*

The proposed amendment will revise the Haddam Neck Technical Specifications (TS) to delete TS Sections 1.38 and 1.39, "Definitions, Fuel Assembly Types," revise TS Sections 3/4.9.3, "Refueling Operations, Decay Time" and 3/4.9.14, "Refueling Operations, Spent Fuel Pool—Reactivity Condition," replace TS Sections 5.6.1.1, "Spent Fuel," and 5.6.3, "Capacity," and add a new TS Section 3/4.9.15, "Refueling Operations, Spent Fuel Pool Cooling." The proposed action is in accordance with the licensee's amendment request dated March 31, 1995, as supplemented November 14, 1995.

*The Need for the Proposed Action*

The proposed TS changes support a rerack of the spent fuel pool to expand the spent fuel pool's storage capacity from 1168 assemblies to 1480 assemblies so as to accommodate a full-core-discharge through the current validity date of the Haddam Neck Operating License (2007). The Haddam Neck Plant received its provisional Operating License in June 1967. The original spent fuel pool capacity was 336 fuel assemblies. In 1975-1976, CYAPCO performed a rerack to increase the capacity of the spent fuel pool from 368 to 1172 fuel assemblies. The licensee believed, at that time, that the increase to 1172 fuel assemblies would provide sufficient space until the mid-1990's, at which time a fuel reprocessing facility would be in operation. At the present time, CYAPCO has contracted with the U.S. Department of Energy (DOE) to begin taking delivery of its spent fuel in 1998. However, DOE has indicated that all of CYAPCO's spent fuel may remain at the site until a repository is operational or until some other facility is constructed under the Nuclear Waste Policy Act. CYAPCO does not believe that such a facility will be operational in time for the Haddam
