ACTION:

Final rule.

SUMMARY:

The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council have agreed on a final rule to amend the Federal Acquisition Regulation (FAR) to increase the dollar thresholds for the performance of Contractors’ Purchasing Systems Reviews (CPSR’s) and the thresholds for subcontract consent. This regulatory action was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

A proposed rule was published in the Federal Register at 59 FR 16393, April 6, 1994, with a request for comments. Three responses were received. The Councils’ analysis of those comments did not result in any revisions to the proposed rule.

A. Background

Under the current FAR 31.205–41(b)(6), excise taxes on accumulated funding deficiencies or prohibited transactions involving employee deferred compensation plans pursuant to sections 4971 and 4975 of the Internal Revenue Code of 1954, as amended, are unallowable. This reflects a longstanding Government policy that punitive-type excise taxes are not reimbursable costs on Government contracts. Over the years, subsequent legislation has added several new excise taxes to subtitle D, chapter 43 of the Internal Revenue Service Code such that the Code currently lists 13 such taxes. The Councils have agreed that it is appropriate to revise FAR 31.205–41(b)(6) to insert a general prohibition on all excise taxes found at subtitle D, chapter 43 of the Internal Revenue Service Code. Such a general prohibition will ensure that future legislative changes to subtitle D, chapter 43 of the Internal Revenue Code will be automatically reflected in the cost principle.

A proposed rule was published in the Federal Register at 59 FR 16393, April 6, 1994, with a request for comments. Three responses were received. The Councils’ analysis of those comments did not result in any revisions to the proposed rule.

B. Regulatory Flexibility Act

The Department of Defense, the General Services Administration, and the National Aeronautics and Space Administration certify that this final rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because most contracts awarded to small entities are awarded on a competitive, fixed-price basis and the cost principles do not apply.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the FAR do not impose recordkeeping or information collection requirements, or collections of information from offerors, contractors, or members of the public which require the approval of the Office of Management and Budget under 55 U.S.C. 3501, et seq.

31.205–41 Taxes.

Any excise tax in subtitle D, chapter 43 of the Internal Revenue Code of 1986, as amended. That chapter includes excise taxes imposed in connection with qualified pension plans, welfare plans, deferred compensation plans, or other similar types of plans.

change. As a result of internal review, it was determined that FAR 44.201-2(a)(1) should also be revised to reflect the higher threshold.

B. Regulatory Flexibility Act

The Department of Defense, the General Services Administration, and the National Aeronautics and Space Administration certify that this final rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because the threshold increase will reduce the number of contractors meeting the criteria for CPSR’s and the number of small businesses requesting consent to subcontract as a result of the increased threshold will be minimal.

C. Paperwork Reduction Act

The Paperwork Reduction Act (Public Law 96-511) is deemed to apply because the final rule contains information collection requirements. Accordingly, a request for approval of a new information collection requirement concerning 9000-0132 has been approved by the Office of Management and Budget under 44 U.S.C. 3501, et seq., through June 30, 1997.
