SCCLP’s facilities at the international border between the United States and Canada. SCCLP states that Boundary’s use of the border facilities will not alter the current operations and ownership except that both SCCLP’s gas and Boundary’s gas will be transported through the border facilities. SCCLP has requested to amend its Presidential Permit; however, the requested change will also require that the Section 3 authorization be amended as well. Therefore, it is construed that the instant filing requests an amendment of the Presidential Permit and the Section 3 authorization issued in the Commission’s May 1, 1991 order.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before February 12, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission’s Rules.
