

approved. This provides for plentiful supplies for consumers and for market expansion while retaining the mechanism for dealing with oversupply situations. At its August 28, 1995, meeting, the Board recommended that an increase of 15 percent (637 tons) for market expansion be included in the inshell trade demand which was used to compute the interim percentages. The established final percentages are based on the final inshell trade demand, and will make available an additional 637 tons for desirable carryout. The total free supply will be the final trade demand of 4,985 tons plus the declared carryin of 536 tons or 5,521 tons. This is 130 percent of prior years' sales and exceeds the goal of the Guidelines.

Based on the above, the Administrator of the AMS has determined that this interim final rule will not have a significant economic impact on a substantial number of small entities. Written comments, timely received in response to this action, will be considered before finalization of this rule.

After consideration of all available information, it is found that the establishment of interim final and final free and restricted percentages, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined, upon good cause, that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect, and that good cause exists for not postponing the effective date of this action until 30 days after publication in the Federal Register because: (1) The 1995-96 marketing year began July 1, 1995, and the percentages established herein apply to all merchantable filberts/hazelnuts handled from the beginning of the crop year; (2) handlers are aware of this rule, which was recommended at an open Board meeting, and need no additional time to comply with this rule; and (3) interested persons are provided a 30-day comment period in which to respond. All comments timely received will be considered prior to finalization of this action.

### **FEDERAL RESERVE SYSTEM**

#### **12 CFR Parts 207, 220, 221 and 224**

[Regulations G, T, U and X]

#### **Securities Credit Transactions; List of Marginable OTC Stocks; List of Foreign Margin Stocks**

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Final rule; determination of applicability of regulations.

**SUMMARY:** The List of Marginable OTC Stocks (OTC List) is composed of stocks traded over-the-counter (OTC) in the United States that have been determined by the Board of Governors of the Federal Reserve System to be subject to the margin requirements under certain Federal Reserve regulations. The List of Foreign Margin Stocks (Foreign List) is composed of foreign equity securities that have met the Board's eligibility criteria under Regulation T. The OTC List and the Foreign List are published four times a year by the Board. This document sets forth additions to and deletions from the previous OTC List. There are no additions to or deletions from the previous Foreign List.

**EFFECTIVE DATE:** February 12, 1996.

**FOR FURTHER INFORMATION CONTACT:** Peggy Wolffrum, Securities Regulation Analyst, Division of Banking

Supervision and Regulation, (202) 452-2781, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. For the hearing impaired *only*, contact Dorothea Thompson, Telecommunications Device for the Deaf (TDD) at (202) 452-3544.

**SUPPLEMENTARY INFORMATION:** Listed below are additions to and deletions from the OTC List, which was last published on October 30, 1995 (60 FR 55183), and became effective November 13, 1995. A copy of the complete OTC List is available from the Federal Reserve Banks.

The OTC List includes those stocks that meet the criteria in Regulations G, T and U (12 CFR Parts 207, 220 and 221, respectively). This determination also affects the applicability of Regulation X (12 CFR Part 224). These stocks have the degree of national investor interest, the depth and breadth of market, and the availability of information respecting the stock and its issuer to warrant regulation in the same fashion as exchange-traded securities. The OTC List also includes any OTC stock designated for trading in the national market system (NMS security) under rules approved by the Securities and Exchange Commission (SEC). Additional OTC stocks may be designated as NMS securities in the interim between the Board's quarterly publications. They will become automatically marginable upon the effective date of their NMS designation. The names of these stocks are available at the SEC and at the National Association of Securities Dealers, Inc. and will be incorporated into the Board's next quarterly publication of the OTC List.

There are no new additions, deletions or changes to the Board's Foreign List, which was last published on October 30, 1995 (60 FR 55183), and which became effective November 13, 1995. The Foreign List includes those foreign equity securities that meet the criteria in section 220.17 of Regulation T and are eligible for margin treatment at broker-dealers on the same basis as domestic margin securities. A copy of the complete Foreign List is available from the Federal Reserve Banks.

Public Comment and Deferred Effective Date

The requirements of 5 U.S.C. 553 with respect to notice and public participation were not followed in connection with the issuance of this amendment due to the objective character of the criteria for inclusion and continued inclusion on the Lists specified in 12 CFR 207.6(a) and (b), 220.17(a), (b), (c) and (d), and 221.7(a)

and (b). No additional useful information would be gained by public participation. The full requirements of 5 U.S.C. 553 with respect to deferred effective date have not been followed in connection with the issuance of this amendment because the Board finds that it is in the public interest to facilitate investment and credit decisions based in whole or in part upon the composition of these Lists as soon as possible. The Board has responded to a request by the public and allowed approximately a two-week delay before the Lists are effective.
