

situation in which he finds himself.”. However, the record discloses that the Respondent did not follow this advice and enter the Friary or any other treatment program, and the record contains no evidence that he has since sought such treatment.

Also significant was the Respondent's failure to acknowledge his responsibility to review his DEA renewal application before submission, instead he testified in 1994 that “I don't sit around worrying about these applications.” The Deputy Administrator agrees with the Government attorney that such conduct raises grave doubts as to the Respondent's commitment to precise regulatory compliance in the future, a commitment needed to meet the responsibilities of a DEA registration for the handling of controlled substances.

Therefore, after reviewing the entire record, the Deputy Administrator finds that the public interest is best served by revoking the Respondent's DEA Certificate of Registration and denying any pending application. The Respondent's violations of statutory and regulatory provisions, his admitted past drug abuse and the lack of evidence that the Respondent completed a substance abuse treatment program as recommended by the Alabama Board and treating physicians at the Friary, and his continuing failure to take responsibility for compliance with DEA regulatory requirements, support a finding that the public interest is best served by revoking his registration and denying any pending applications at this time.

Accordingly, the Deputy Administrator of the Drug Enforcement Administration, pursuant to the authority vested in him by 21 U.S.C. 823 and 824, and 28 C.F.R. 0.100(b) and 0.104, hereby orders that DEA Certificate of Registration AM2822876 issued to Terrence E. Murphy, M.D., be, and it hereby is, revoked, and any pending applications for renewal of said registration are denied. This order is effective February 28, 1996.

Dated: January 23, 1996.
Stephen H. Greene,
Deputy Administrator.

NATIONAL SCIENCE FOUNDATION

Special Emphasis Panel in Mathematical Sciences; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting.

Name and Committee Code: Special Emphasis in Mathematical Sciences (1204).
Date and Time: February 12-13, 1996; 8:30 a.m. until 5:00 p.m.

Place: Room 340, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.

Type of Meeting: Closed.

Contact Person: Dr. Kichoon Yang, Program Director, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. Telephone: (703) 306-1881.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate the Analysis Program nominations/applications as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c) (4) and (6) of the Government in the Sunshine Act.

Dated: January 23, 1996.
M. Rebecca Winkler,
Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

Availability of the Revision 1 to the License Application Review Plan for a Geologic Repository for Spent Nuclear Fuel and High-Level Radioactive Waste—Draft Review Plan

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

SUMMARY: The Nuclear Regulatory Commission is announcing the availability of Revision 1 to NUREG-1323, “The License Application Review Plan for a Geologic Repository for Spent Nuclear Fuel and High-Level Radioactive Waste—Draft Review Plan.”

ADDRESSES: Copies of NUREG-1323, Revision 1 can be purchased from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, D.C. 20402-9328.

Copies are also available from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161-0002. A copy of NUREG-1323, Revision 1 is available for public inspection and/or copying at the NRC Public Document Room, 2120 L Street (Lower Level), N.W., Washington, D.C. 20555-0001.

FOR FURTHER INFORMATION CONTACT:

Sandra L. Wastler, High-Level Waste and Uranium Recovery Projects Branch, Division of Waste Management, Office of Nuclear Safety and Safeguards, Nuclear Regulatory Commission, 11545 Rockville Pike, MD 20852. Telephone: (301) 415-6724.

SUPPLEMENTARY INFORMATION: The License Application Review Plan (LARP) provides guidance to the NRC staff who will review the U.S. Department of Energy's (DOE's) license application to construct a mined geologic repository for the disposal of spent nuclear fuel and other high-level radioactive waste at Yucca Mountain, Nevada. The LARP is intended to ensure the quality and uniformity of the staff reviews and establishes the appropriate review priorities, and presents a well-defined base from which to evaluate proposed changes in the scope and requirements of the staff reviews. Because it is a public document, it will also make available to DOE and other interested parties information on the staff's review process so that they may better understand the review strategies, procedures, and acceptance criteria that the staff will use.

The LARP, Revision 0 was issued in September, 1994. Revision 0 represented the staff's initial efforts in developing the LARP and was comprised of both completed and outlined individual review plans. The LARP was and continues to be, however, a work in progress. This draft version, designated Revision 1, represents the staff's latest efforts in the development of the LARP and includes 12 newly completed review plans. Appendix D provides a status of the development of the individual review plans.

Dated at Rockville, Maryland, this 17th day of January 1996.

For the Nuclear Regulatory Commission,
Joseph J. Holonich,
Chief, High-Level Waste and Uranium Recovery Projects Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguard.
