

following the notice and comment procedures of section 307(d) of the Clean Air Act, take appropriate action. If, after reconsideration of these provisions, EPA determines that it is appropriate to impose new requirements that are stricter than the existing rules, EPA will propose an adequate compliance period from the date of final action on reconsideration. EPA will seek to ensure that the affected parties are not unduly prejudiced by the Agency's reconsideration. EPA expects that any EPA proposal regarding changes to the tax liability certification requirement for a petition for the import of used class I controlled substances would be subject to the notice and comment procedures of Clean Air Act section 307(d).

Approval and Promulgation of Implementation Plans; Tennessee: Approval of Revisions To Process Emission Standards for New and Existing Cotton Gins

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Tennessee for the purpose of revising

the current regulations for process emission standards for new and existing cotton gins. These revisions also provide an optional method of using selected controls to demonstrate compliance with the emission standards. In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: To be considered, comments must be received by March 1, 1996.

ADDRESSES: Written comments on this action should be addressed to Karen Borel, at the EPA Regional Office listed below. Approval of Maintenance Plan and Designation of Areas for Air Quality Planning Purposes; Ohio

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: The USEPA proposes to approve the redesignation to attainment requests and maintenance plans submitted by the State of Ohio for the Canton (Stark County), and Youngstown (Mahoning and Trumbull Counties), marginal ozone nonattainment areas as revisions to Ohio's State Implementation Plan (SIP) for ozone. In the final rules section of this Federal Register, USEPA is approving the State's SIP revision, as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. The "direct final" approval shall be effective on April 1, 1996, unless USEPA receives adverse or critical comments by March 1, 1996. If USEPA receives comments adverse to or critical of the approval discussed above, USEPA will withdraw this approval before its effective date by publishing a subsequent Federal Register document which withdraws this final action. All public comments received will then be addressed in a subsequent rulemaking document. Any parties interested in commenting on this action should do so at this time. If no such comments are received, USEPA hereby advises the public that this action will be effective on April 1, 1996. The USEPA will not institute a second comment period on this document.

DATES: Comments on this proposed rule must be received on or before March 1, 1996.

ADDRESSES: Written comments should be mailed to: Jay Bortzer, Chief,
