

for transfer or receipt of 1 kilogram or more of source material. Licensees affected by 10 CFR Part 75 and related sections of Parts 40, 50, 70, and 150 are required to submit DOE/NRC Form 740M to inform the U. S. or the IAEA of any qualifying statement or exception to any of the data contained in any of the other reporting forms required under the U.S./IAEA Safeguards Agreement. The use of Forms 740M, 741, and 741A, together with NUREG/BR-0006, the instructions for completing the forms, enables NRC to collect, retrieve, analyze as necessary, and submit the data to IAEA to fulfill its reporting responsibilities.

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access the submittal via modem on the Public Document Room Bulletin Board (NRC's Advance Copy Document Library) NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions should be directed to the OMB reviewer by March 1, 1996. Troy Hillier, Office of Information and Regulatory Affairs (3150-0057 & -0003), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3084.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 415-7233.

Dated at Rockville, MD, this 25th day of January, 1996.

For the Nuclear Regulatory Commission,
Gerald F. Cranford,
Designated Senior Official for Information Resources Management.

BILLING CODE 7590-01-P

Documents Containing Reporting or Recordkeeping Requirements: Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection

request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review or continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 part CFR 81, Standard Specifications for the Granting of Patent Licenses.

2. Current OMB approval number: (3150-0121).

3. How often the collection is required: Applications for licenses are submitted once. Other reports are submitted annually or as other events require.

4. Who is required or asked to report: Applicants for and holders of NRC licenses to NRC inventions.

5. The number of annual respondents: 0.

6. The number of hours needed annually to complete the requirement or request: 35 hours, however, none are anticipated during the next three years.

7. Abstract: 10 CFR part 81 establishes the standard specifications for the issuance of licenses to rights in inventions covered by patents or patent applications vested in the United States, as represented by or in the custody of the Commission and other patents in which the Commission has legal rights.

Submit, by April 1, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street NW. (lower level), Washington, DC. Members of the public who are in the Washington, DC area can access this document via modem on the Public Document Room Bulletin Board (NRC's Advanced Copy Document Library), NRC subsystem at FedWorld, 702-321-3339. Members of the public who are located outside of the Washington, DC area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address:

fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions may be directed to the NRC Clearance Officer, Brenda Jo Shelton, U.S. Nuclear Regulatory Commission, T-6 F33, Washington, DC, 20555-0001, or by telephone at (301) 415-7233, or by Internet electronic mail at BJS1@NRC.GOV.

Dated at Rockville, MD., this 25th day of January, 1996.

For the Nuclear Regulatory Commission,
Gerald F. Cranford,
Designated Senior, Official for Information Resources Management.

BILLING CODE 7590-01-P

Documents Containing Reporting or Recordkeeping Requirements: Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review or continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: NRC Form 483, "Registration Certificate—*In Vitro* Testing with Byproduct Material Under General License"

2. Current OMB approval number: 3150-0038

3. How often the collection is required: There is a one-time submittal of information to receive a validated copy of NRC Form 483 with an assigned registration number. In addition, any changes in the information reported on NRC Form 483 must be reported in writing to the Commission within 30 days after the effective date of such change.

4. Who is required or asked to report: Any physician, veterinarian in the practice of veterinary medicine, clinical laboratory or hospital which desires a general license to receive, acquire, possess, transfer, or use specified units

of byproduct material in certain *in vitro* clinical or laboratory tests.

5. The number of annual respondents: 104 NRC licensees and 260 Agreement State licensees.

6. The number of hours needed annually to complete the requirement or request: 42 hours or approximately 7 minutes per NRC or Agreement State licensee.

7. Abstract: Section 31.11 of 10 CFR establishes a general license authorizing any physician, clinical laboratory, veterinarian in the practice of veterinary medicine, or hospital to possess certain small quantities of byproduct material for *in vitro* clinical or laboratory tests not involving the internal or external administration of the byproduct material or the radiation therefrom to human beings or animals. Possession of byproduct material under 10 CFR 31.11 is not authorized until the physician, clinical laboratory, veterinarian in the practice of veterinary medicine, or hospital, has filed NRC Form 483 and received from the Commission a validated copy of NRC Form 483 with a registration number.

BILLING CODE 7590-01-P

Consolidated Edison Company of New York, Inc.

[Docket No. 50-3]

Indian Point Unit No. 1; Issuance of Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order authorizing the decommissioning of Indian Point Unit No. 1 (IP-1) that is licensed to Consolidated Edison Company of New York, Inc. (Con Edison). The proposed Decommissioning Plan involves safe storage (SAFSTOR) of IP-1 until after IP-2 is permanently shut down, at which time both units would be decontaminated and dismantled. The staff has evaluated the proposed SAFSTOR of IP-1 to 2013, consistent with the licensee's amended Decommissioning Plan. The IP-1 license is being renewed only to October 14, 2006, to be consistent with a Notice of Consideration of Issuance of Amendment and Opportunity for Hearing which was published in the Federal Register on December 31, 1985 in order to put new Technical Specifications for the current shutdown condition in place.

Description of Proposed Action

IP-1 has been shut down since October 31, 1974, and all spent fuel has been removed from the reactor and transferred to the IP-1 spent fuel storage pools. Approval of the Decommissioning Plan will allow Con Edison to retain IP-1 in a SAFSTOR status in accordance with an approved Decommissioning Plan. SAFSTOR of IP-1 will allow continued use of the site for electric power production by IP-2. A significant portion of IP-1 equipment is being used to support IP-2 operations.

Finding of No Significant Impact

The staff has reviewed the proposed decommissioning relative to the

requirements given in 10 CFR Part 51. In the SAFSTOR alternative, IP-1 will be safely stored and subsequently decontaminated to levels that permit release of the property to unrestricted use. IP-1 data on radionuclide inventories for activation and contamination shows that cobalt-60 is the dominant gamma-emitting radionuclide and that an initial 378,000 curies of cobalt-60 in the reactor vessel and its internals at reactor shutdown will decrease the 2,390 curies by 2013. Data on primary system contamination shows that the inventory of cobalt-60 will decrease from 198 curies in 1988 to 7 curies in 2013 and that cesium-137 will decrease from 23 curies to 13 curies over the same period of time. Data on auxiliary systems contamination also shows a decrease during the SAFSTOR period. These reductions in radioactivity will reduce potential exposures to personnel during final dismantling and also may reduce waste volume for disposal.

Based upon its Environmental Assessment, the staff concluded that there are no significant environmental impacts associated with the proposed decommissioning and that the proposed decommissioning will not have a significant effect on the quality of the human environment. Therefore, the Commission has determined, pursuant to 10 CFR 51.31, not to prepare an environmental impact statement for the proposed decommissioning of IP-1.

For further details with respect to this action, see: (1) the licensee's application for authorization to decommission IP-1, dated October 17, 1980, as revised October 13, 1981; July 31, 1986; March 28, 1988; August 10, 1989; March 28 and July 17, 1990; February 5, April 2, July 31, September 20, and October 12, 1993; May 13 and August 11, 1994; and July 19, 1995; (2) the NRC's Environmental Assessment and Finding of No Significant Impact; and (3) the NRC's Safety Evaluation. These documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC, and at the White Plains Public Library, 100 Martine Avenue, White Plains, New York.

Dated at Rockville, Maryland, this 25th day of January 1996.

For the Nuclear Regulatory Commission,
Seymour H. Weiss,

Director, Non-Power Reactors and Decommissioning Project Directorate, Division of Reactor Program Management, Office of Nuclear Reactor Regulation.
