Approval and Promulgation of Implementation Plans; Arizona State Implementation Plan Revision, Maricopa County Division of Air Pollution Control

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing the approval of revisions to the Arizona State Implementation Plan (SIP) proposed in the Federal Register on October 4, 1994. The revisions concern rules from the Maricopa County Division of Air Pollution Control (MCDAPC). This approval action will incorporate these rules into the federally approved SIP. The intended effect of approving these rules is to regulate emissions of volatile organic compounds (VOCs) in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). The revised rules control VOC emissions from solvent

degreasing operations, petroleum solvent dry cleaning, gasoline transfer, and the use of roadway asphalt. Thus, EPA is finalizing the approval of these revisions into the Arizona SIP under provisions of the CAA regarding EPA action on SIP submittals, SIPs for national primary and secondary ambient air quality standards and plan requirements for nonattainment areas.

EFFECTIVE DATE: This action is effective on March 4, 1996.

ADDRESSES: Copies of the rule revisions and EPA's evaluation report for each rule are available for public inspection at EPA's Region IX office during normal business hours. Copies of the submitted rule revisions are available for inspection at the following locations:

SUPPLEMENTARY INFORMATION:

Background

On October 4, 1994 in 59 FR 50533, EPA proposed to approve the following MCDAPC rules into the Arizona SIP: Rule 331, Solvent Cleaning; Rule 333, Petroleum Solvent Dry Cleaning; Rule 340, Cutback and Emulsified Asphalt; and Rule 353, Transfer of Gasoline into Stationary Dispensing Tanks. Rule 331 and Rule 333 were adopted by MCDAPC on June 22, 1992. Rule 340 was adopted on September 21, 1992, and Rule 353 was adopted on April 6, 1992. These rules were submitted by the Arizona Department of Environmental Quality (ADEQ) to EPA on June 29, August 10, and November 13, 1992. These rules were submitted in response to EPA's 1988 SIP-Call and the CAA section 182(a)(2)(A) requirement that nonattainment areas fix their reasonably available control technology (RACT) rules for ozone in accordance with EPA guidance that interpreted the requirements of the pre-amendment Act.

A detailed discussion of the background for each of the above rules and the nonattainment area is provided in the notice of proposed rulemaking (NPRM) cited above.

EPA has evaluated all of the above rules for consistency with the requirements of the CAA, EPA regulations, and EPA interpretation of these requirements as expressed in the various EPA policy guidance documents referenced in the NPRM cited above. EPA has found that the rules meet the applicable EPA requirements. A detailed discussion of the rule provisions and evaluations has been provided in 59 FR 50533 and in technical support documents (TSDs) available at EPA's Region IX office.

Response to Public Comments

A 30-day public comment period was provided in 59 FR 50533. EPA received no comments regarding the NPRM.

EPA Action

EPA is finalizing action to approve the above rules for inclusion into the Arizona SIP. EPA is approving the submittal under section 110(k)(3) as meeting the requirements of section 110(a) and Part D of the CAA. This approval action will incorporate these rules into the federally approved SIP. The intended effect of approving these rules is to regulate emissions of VOCs in accordance with the requirements of the CAA.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Unfunded Mandates

Under Sections 202, 203, and 205 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must undertake various actions in association with proposed or final rules that include a Federal mandate that may result in estimated costs of \$100 million or more to the private sector or to State, local, or tribal governments in the aggregate.

Through submission of this state implementation plan or plan revision, the State and any affected local or tribal governments have elected to adopt the program provided for under Part D of the Clean Air Act. These rules may bind State, local, and tribal governments to

perform certain actions and also require the private sector to perform certain duties. The rules being approved by this action will impose no new requirements because affected sources are already subject to these regulations under State law. Therefore, no additional costs to State, local, or tribal governments or to the private sector result from this action. EPA has also determined that this final action does not include a mandate that may result in estimated costs of \$100 million or more to State, local, or tribal governments in the aggregate or to the private sector.

This action has been classified as a Table 3 action for signature by the Regional Administrator under the procedures published in the Federal Register on January 19, 1989 (54 FR 2214-2225), as revised by a July 10, 1995 memorandum from Mary Nichols, Assistant Administrator for Air and Radiation. The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866 review.

Approval and Promulgation of Implementation Plans; California State Implementation Plan Revision; San Joaquin Valley Unified Air Pollution Control District; South Coast Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing the approval of revisions to the California State Implementation Plan (SIP) proposed in the Federal Register on March 28, 1995 and on April 20, 1995. The revisions concern San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) Rule 4403 and South Coast Air Quality Management District (SCAQMD) Rule 1164. SJVUAPCD Rule 4403 controls volatile organic compound (VOC) emissions from components at light crude oil and gas production facilities and at natural gas processing facilities. SCAQMD Rule 1164 covers VOC emissions from semiconductor manufacturing operations. This approval action will incorporate the

rules into the Federally approved SIP. The intended effect of approving these rules is to regulate VOC emissions in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In addition, this action will serve as a final determination that deficiencies identified by EPA in limited approval/limited disapproval actions on August 30, 1993 and September 29, 1993 have been corrected and that any sanctions or Federal Implementation Plan obligations are permanently stopped. EPA is finalizing the approval of these rules into the California SIP under provisions of the CAA regarding EPA action on SIP submittals, SIPs for national primary and secondary ambient air quality standards and plan requirements for nonattainment areas.

EFFECTIVE DATE: This action is effective on March 4, 1996.

ADDRESSES: Copies of these rules and EPA's evaluation report for each rule are available for public inspection at EPA's Region IX office during normal business hours. Copies of the submitted rules are available for inspection at the following locations:

SUPPLEMENTARY INFORMATION:

Background

On March 28, 1995 in 60 FR 15891, EPA proposed to approve the following rule into the California SIP: SJVUAPCD Rule 4403, Components Serving Light Crude Oil and Gases at Light Crude Oil and Gas Production Facilities and Components at Natural Gas Processing Facilities. Rule 4403 was adopted by SJVUAPCD on February 16, 1995. On
