Prohibition on Gasoline Containing Lead or Lead Additives for Highway Use

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Clean Air Act prohibits the introduction of gasoline containing lead or lead additives into commerce for use as a motor vehicle fuel after December 31, 1995. In today's action, EPA proposes to revise its regulations regarding gasoline so as to prohibit the introduction of gasoline which is produced with the use of any lead additive, or contains more than 0.05 gram of lead per gallon, into commerce for use as motor vehicle fuel effective January 1, 1996, to remove existing regulatory provisions which will no longer be necessary as a result of this ban, and to modify other provisions to reflect the institution of this ban. In the final rules section of this Federal Register, EPA is promulgating this amendment as a direct final rule without prior proposal, because EPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the proposed changes is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this notice should do so at this time.

DATES: Comments on this proposed rule must be received by March 4, 1996.

ADDRESSES: Written comments on this proposed action should be addressed to

Public Docket No. A-95-13, Waterside Mall (Room M-1500), Environmental Protection Agency, Air Docket Section, 401 M Street, S.W., Washington, D.C. 20460. Materials relevant to this rulemaking have been placed in Docket A-95-13. Documents may be inspected between the hours of 8:00 a.m. to 5:30 p.m., Monday through Friday. A reasonable fee may be charged for copying docket material. Those wishing to notify EPA of their intent to submit adverse comment or request an opportunity for a public hearing on this action should contact Paulina Chen, U.S. Environmental Protection Agency, Office of Air and Radiation, (202) 233-9031.

50 CFR Part 23

Export of Box Turtles From the United States in 1996

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Request for Information and Comment.

SUMMARY: Information is solicited to assist the Fish and Wildlife Service in (1) making an export finding for box turtles for 1996, as required under The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), and (2) evaluating the feasibility of breeding of box turtles in captivity for export. International Air Transport Association (IATA) Live Animals Regulations, as they apply to shipment of box turtles, are described, and comment is invited on IATA shipping container requirements for live box turtles.

DATES: Comments and information must be received by March 4, 1996.

ADDRESSES: Please send correspondence concerning this notice to the Office of Scientific Authority; Mail Stop 725, Arlington Square; U.S. Fish and

Wildlife Service; Department of the Interior; Washington, D.C. 20240. The fax number is (703) 358-2276. Express and messenger-delivered mail should be addressed to the Office of Scientific Authority; 4401 North Fairfax Drive, Room 750; Arlington, Virginia 22203. Comments and other information received are available for public inspection by appointment, from 8 a.m. to 4 p.m., Monday through Friday, at the Arlington, Virginia address.

FOR FURTHER INFORMATION CONTACT:

Scientific Authority finding—Dr. Marshall A. Howe, Office of Scientific Authority, phone (703) 358-1708; fax (703) 358-2276; e-mail marshall_howe@mail.fws.gov.

Management Authority finding and export permits—Mr. Scott Hicks, Office of Management Authority, phone (800) 358-2104; fax (703) 358-2281.

SUPPLEMENTARY INFORMATION:

Publication of this notice has occurred later than planned, because of the unexpected furlough of most Department of the Interior employees in December, 1995 and January, 1996. Nevertheless, the Fish and Wildlife Service (Service) believes that public input is important and has allowed for a 30-day public comment period. The Service realizes that the collecting period for turtles by commercial dealers in Louisiana is highly seasonal and will therefore issue its advice as promptly as possible after all public input has been thoroughly considered. It is the Service's intent to be able to issue export permits, if warranted, by March 15, 1996.

The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) regulates import, export, re-export, and introduction from the sea of certain animal and plant species. Species for which trade is controlled are included in one of three Appendices. Appendix I includes species threatened with extinction that are or may be affected by international trade. Appendix II includes species that, although not necessarily now threatened with extinction, may become so unless the trade is strictly controlled. Appendix III includes species that any Party country identifies as being subject to regulation within its jurisdiction for purposes of preventing or restricting exploitation, and for which it needs the cooperation of other Parties to control trade.

International trade in Appendix II species is permitted only if shipments are accompanied by either an export permit issued by the country-of-origin, or a re-export certificate issued by an intermediary country. Before such
