Intent To Prepare a Supplemental Environmental Impact Statement (SEIS) on the Modification/Reissuance of a New Source National Pollutant Discharge Elimination System (Permit for Waste Water Discharges From the Proposed Expansion of Sabine Mining Company's (SMC) South Hallsville Lignite Mine No. 1, in Harrison County, Texas

AGENCY: U.S. Environmental Agency (EPA).

PURPOSE: To meet National Environmental Policy Act and Clean Water Act requirements for consideration of environmental impacts associated with the modification/reissuance of a NPDES permit.

SUMMARY: In 1982, the EPA prepared an EIS on its decision to issue NPDES permits for the Henry W. Pirkey Power Plant Unit 1 and the SMC's South Hallsville Mine No. 1. The EPA's Supplemental EIS will cover SMC's expansion activities not covered by the original EPA document. The 33,500 acre expansion is located east of, and contiguous to, the existing SMC South Hallsville Mine No. 1. The expansion will provide an estimated four million tons per year of lignite to fuel the Pirkey Plant through the year 2020.

ALTERNATIVES: The EPA may issue or deny NPDES permit authorization for waste water discharges from the proposed expansion.

SCOPING MEETING: The EPA will hold a public meeting on Tuesday, March 19, 1996, at 7:00 p.m. at the Marshall Civic Center, located at 2501 East End Boulevard (U.S. Highway 59), in Marshall, Texas, to receive public input on environmental issues that should be addressed in the Draft SEIS.

FOR SCOPING COMMENTS, ADDITIONAL INFORMATION, OR TO BE PLACED ON EIS MAILING LIST CONTACT: Mr. Robert D. Lawrence, Chief, Office of Planning and Coordination, EPA (6EN-XP), 1445 Ross

Avenue, Dallas, Texas 75202-2733; telephone (214) 665-2258.

ESTIMATED DATE OF DRAFT EIS RELEASE: July, 1996.

RESPONSIBLE OFFICIAL: Jane N. Saginaw, Regional Administrator.

Anne Norton Miller,

Deputy Director, Office of Federal Activities.

South Bay International Wastewater Treatment Plant Intent To Prepare Two Draft Supplemental Environmental Impact Statements (SEISs)

AGENCIES: U.S. Environmental Protection Agency (EPA) U.S. Section, International Boundary and Water Commission (IBWC).

ACTION: Notice of Intent to prepare two Supplemental Environmental Impact Statements (SEISs) to examine interim disposal options and secondary treatment alternatives for the South Bay International Wastewater Treatment Plant, San Diego, CA.

AUTHORITY: In accordance with Section 510 of the Water Quality Act of 1987, as amended, and Section 102(2)(c) of the National Environmental Policy Act (NEPA). EPA and the IBWC have identified a need to prepare two SEISs and therefore issue this Notice of Intent pursuant to 40 CFR 1501.7, 1508.22, 6.404(a), and 6.105(e).

FOR FURTHER INFORMATION AND TO BE PLACED ON THE PROJECT MAILING LIST CONTACT: Ms. Elizabeth Borowiec, U.S. EPA, Region 9, 75 Hawthorne Street, Mail Code W-2-2, San Francisco, California 94105, (415) 744-1948.

SUMMARY: In July 1990, the IBWC and Mexico signed Minute 283 which outlined a plan for the treatment of renegade sewage flows emanating from Tijuana, Mexico and crossing into the United States along the U.S./Mexican border in San Diego. In the Minute, the two countries agreed to construct an international wastewater treatment plant (IWTP) on the U.S. side of the border. In May of 1991, EPA and the IBWC issued a draft Environmental Impact Statement (DEIS) which examined alternatives to implementing the Minute. After receiving public comment on the DEIS, a final EIS (FEIS) was issued in February of 1994 recommending the construction of a full secondary treatment wastewater treatment plant to be located on a 75-acre site just west of San Ysidro, CA near the intersection of Dairy Mart and Monument Roads. The FEIS also
