Substance Abuse and Mental Health Services Administration; Proposed Data Collection Available for Public Comment

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 to provide the opportunity for public comment on proposed data collection projects, the Substance Abuse and Mental Health Services Administration publishes periodic summaries of proposed

projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the SAMHSA Reports Clearance Officer on (301) 443–0525.

Revised Notice

On Wednesday, November 29, 1995 SAMHSA published a notice in the Federal Register inviting public comment on the FY 1997 Substance Abuse Prevention and Treatment (SAPT) Block Grant Application Format. The Public Health Service Act (42 U.S.C. 300x 21–35 & 51–64) authorizes block grants to States for the purpose of providing substance abuse prevention and treatment services. Under the provisions of the law, States may receive allotments only after an application is submitted and approved by the Secretary, DHHS. The notice of November 29 stated that the block grant application format SAMHSA proposed to distribute to States for FY 1997 would be the same as the FY 1996 format. (The FY 1996 SAPT Block Grant Application Format was approved under OMB No. 0930–0080.) This notice amends the earlier notice. On Friday, January 19, the Tobacco Regulation for Substance Abuse Prevention and Treatment Block Grant (45 CFR Part 96) was issued as a final rule. (See Federal Register Vol. 61, No. 13.) This final rule requires States applying for a block grant to report annually on their activities and plans related to enforcing State laws prohibiting the sale or distribution of tobacco products to minors. The report is to be submitted as part of the block grant application. The addition of the forms and narrative implementing this reporting requirement is the only substantive change that SAMHSA plans to make to the FY 1997 block grant application format. It is estimated that the additional response burden will average 24 hours per State. The total annual burden estimate is shown below:

No. of Respondents	No. of responses per respondent	Avg. burden per response	Total annual burden
60	1	554 hours	33,240 hours.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; ways to enhance the quality, utility, and

clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Deborah Trunzo, SAMHSA Reports Clearance Officer, Room 16–105, Parklawn

Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: January 30, 1996.
 Richard Kopanda,
Acting Executive Officer, SAMHSA.
