

the Rodman Dam/Ocklawaha River Restoration Project in Putnam and Marion Counties, Florida.

**ADDRESSES:** U.S. Army Corps of Engineers, Jacksonville District, P.O. Box 4970, Jacksonville, Florida 32232-0019.

**FOR FURTHER INFORMATION CONTACT:** Ms. Therese Fretwell, 904-232-3271.

**SUPPLEMENTARY INFORMATION:** a. The Water Resources Development Act of 1990 (Public Law 101-640) required the U.S. Corps of Engineers to transfers all lands, facilities and management responsibilities associated with Cross Florida Barge Canal Project to the State of Florida. The Florida Department of Environmental Protection (FDEP) is now in the process of developing the Rodman Dam/Ocklawaha River Restoration project for restoring a portion of the Cross Florida Canal to its historic condition. The U.S. Army Corps of Engineers participation will include permitting activities for Section 9 and Section 10 of the Rivers and Harbors Act and Section 404 of the Clean Water Act and NEPA documentation of this project. The FDEP application for a Department of the Army permit includes four alternative plans for dealing with management of the Rodman Dam. These include: Complete Restoration of the Ocklawaha River, Partial Restoration of the Ocklawaha River, Total Retention of the Rodman Reservoir and Partial Retention of the Rodman Reservoir. The FDEP has chosen the Partial Restoration of the Ocklawaha River as its preferred alternative for the Rodman Dam/Ocklawaha River Restoration Project. This plan will be an eleven part process that will restore river hydrology and floodplain function to historic conditions through breaching of the dam, with limited removal and/or alteration of structures and topographical manipulation and allowing for maximum restoration from natural processes to occur. The magnitude and duration of the project is such that the U.S. Army Corps of Engineers determined that an EIS should be prepared for the entire project pursuant to the National Environmental Policy Act (NEPA).

b. Scoping: The scoping process as outlined by the Council on Environmental Quality will be utilized to involve Federal, State, and local agencies; and other interested persons and organizations. A scoping letter will be sent to interested Federal, State, local agencies and interested parties requesting their comments and concerns regarding the issues they think should be included in the EIS. Interested

persons and organizations wishing to participate in the scoping process should contact the Corps of Engineers at the above mentioned address.

Environmental considerations will include potential presence of historical or archeological resources, aesthetics, recreation demand, water quality, flood control, water supply, land use, wetlands, endangered and threatened species, and fish and wildlife habitats and values. Public meetings may be held in the future, exact dates, times and locations will be published in local papers.

c. It is estimated that the DEIS will be available to the public by mid-1996.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. RP96-127-000]

#### Boundary Gas, Inc.; Notice of Proposed Changes in FERC Gas Tariff

January 31, 1996.

Take notice that on January 26, 1996, Boundary Gas, Inc. (Boundary) tendered for filing, Second Revised Volume No. 1 of its FERC Gas Tariff to become effective February 26, 1996. Second Revised Volume No. 1 supersedes First Revised Volume No. 1 in its entirety. At the same time, Boundary filed its tariff in an electronic format for the first time.

Boundary states that in the process of restating its tariff electronically, it found that numerous pages were shifting. As a result, Boundary decided it would be simpler and cleaner to replace the previous version of its tariff, First Revised Volume No. 1, with a new version, Second Revised Volume No. 1. Second Revised Volume No. 1 is virtually identical to First Revised Volume No. 1. Boundary states that the only substantive changes appear on six pages, Original Sheet Nos. 1, 2, 12, 13, 30 and 31, and these are minor technical revisions made (i) to bring the tariff into compliance with the requirements of Part 154 of the Commission's regulations or (ii) revise cross references to tariff sheets.

Boundary states that copies of this filing were served upon all customers and interested state regulatory agencies.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888

First Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Linwood A. Watson, Jr.,  
*Acting Secretary.*

[Docket No. RP96-126-000]

#### Sea Robin Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

January 31, 1996.

Take notice that on January 26, 1996, Sea Robin Pipeline Company (Sea Robin) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets to become effective February 26, 1996:

First Revised Sheet No. 29  
First Revised Sheet No. 31  
First Revised Sheet No. 35  
First Revised Sheet No. 94

Sea Robin states that the purpose of this filing is to change certain provisions of the General Terms and Conditions of its Tariff to correspond with certain requests that have been made by its shippers. First, Sea Robin proposes to change Section 5.1 of its Tariff to change the deadline for first-of-the-month nominations from 8:00 a.m. Central Time on the fifth business day to 8:00 a.m. Central time on the third business day prior to the beginning of the month effective with nominations for March 1, 1996. Accordingly, Sea Robin has requested that these sheets be made effective as of February 26, 1996, the new nomination deadline for March 1, 1996.

Additionally, Sea Robin proposes to add a new Section 5.9 which would allow Shippers to rank their receipts and deliveries under a Service Agreement in the event receipts are limited, reduced or interrupted. Without such mechanism, Sea Robin must schedule shipper's gas on a prorata basis in the event of a limitation since it has no means to determine and no
