Draft General Management Plan/ Environmental Impact Statement for Hagerman Fossil Beds National Monument, Idaho

ACTION: Notice of extension of public comment period and rescheduling of public meetings.

SUMMARY: This Notice revises the Notice of Availability of the draft Environmental Impact Statement for this project that was announced previously in the Federal Register on November 29, 1995. It announces an extension of the public comment period and rescheduling of public meetings regarding the Draft General Management Plan/Environmental Impact Statement (GMP/EIS) for Hagerman Fossil Beds

National Monument, Idaho. Copies of the Draft GMP/EIS were sent to approximately 900 individuals, agencies and organizations in November and December 1995. The partial shutdown of the federal government during December and January caused postponement of the previously scheduled public meetings.

DATES AND ADDRESSES: Comments on the Draft GMP/EIS should now be received no later than March 8, 1996. All comments already received and all comments received before this new due date will become part of the public record and will be considered in developing the Final GMP/EIS and Record of Decision. Copies of comments, including any names, addresses and telephone numbers that may have been provided by respondents, may be released for public inspection. Dates, locations and times for public meetings regarding the Draft GMP/EIS will be as follows:

February 21, 1996: Hagerman, Idaho, Monument Visitor Center, 221 North State Street.

10:00am-4:00pm, Open House;

7:00pm-9:30pm, Public Meeting.

February 22, 1996: Twin Falls, Idaho, College of Southern Idaho, Shields Building, Rooms 117 & 118, 315 Falls Avenue.

7:00pm-9:30pm, Public Meeting.

February 23, 1996: Boise, Idaho, Holiday Inn, Brundage Room, 3300 Vista Avenue.

11:00am-3:00pm, Open House.

FOR FURTHER INFORMATION CONTACT:

Questions regarding the plan or meetings should be directed to the Superintendent, Hagerman Fossil Beds National Monument, P.O. Box 570, Hagerman, ID 83332, phone (208) 837-4793; or Project Manager, Hagerman Fossil Beds General Management Plan, National Park Service, P.O. Box 25287, Denver, CO 80225-0287, phone (303) 969-2274. Additional copies of the Draft GMP/EIS are also still available from these sources.

The media should contact Margaret O'Laughlin, Director, Office of Public Affairs (202-205-1819).

Background:

Following receipt of a letter from the United States Trade Representative (USTR) on January 25, 1995, the Commission instituted Investigation No. 332-360, International Harmonization of Customs Rules of Origin, under section 332(g) of the Tariff Act of 1930 (60 FR 19605, April 19, 1995).

The investigation is intended to provide the basis for Commission participation in work pertaining to the Uruguay Round Agreement on Rules of Origin (ARO), under the General Agreement on Tariffs and Trade (GATT) 1994 and adopted along with the Agreement Establishing the World Trade Organization (WTO).

The ARO is designed to harmonize and clarify nonpreferential rules of origin for goods in trade on the basis of the substantial transformation test; achieve discipline in the rules' administration; and provide a framework for notification, review, consultation, and dispute settlement. These harmonized rules are intended to make country-of-origin determinations impartial, predictable, transparent, consistent, and neutral, and to avoid restrictive or distortive effects on international trade. The ARO provides that technical work to those ends will be undertaken by the Customs Cooperation Council (CCC) (now informally known as the World Customs Organization or WCO), which must report on specified matters relating to such rules for further action by parties to the ARO. Eventually, the WTO Ministerial Conference is to "establish the results of the harmonization work program in an annex as an integral part" of the ARO.

In order to carry out the work, the ARO calls for the establishment of a Committee on Rules of Origin of the WTO and a Technical Committee on Rules of Origin (TCRO) of the CCC. These Committees bear the primary responsibility for developing rules that achieve the objectives of the ARO.

A major component of the work program is the harmonization of origin rules for the purpose of providing more certainty in the conduct of world trade. To this end, the agreement contemplates a 3-year CCC program, to be initiated as soon as possible after the entry into force of the Agreement Establishing the WTO. Under the ARO, the TCRO is to undertake (1) to develop harmonized definitions of goods considered wholly obtained in one country, and of minimal processes or operations deemed not to confer origin, (2) to consider the use of change in Harmonized System classification as a means of reflecting substantial transformation, and (3) for those products or sectors where a change of tariff classification does not allow for the reflection of substantial transformation, to develop supplementary or exclusive origin criteria based on value, manufacturing or processing operations or on other standards.

To assist in the Commission's participation in work under the

Agreement on Rules of Origin (ARO), the Commission is making available for public comment a draft of proposed rules for goods of chapters 41-49 of the Harmonized System that are not considered to be wholly made in a single country. The rules rely largely on the change of heading as a basis for ascribing origin.

Copies of the proposed revised rules will be available from the Office of the Secretary at the Commission, from the Commission's Internet web server (<http://www.usitc.gov>), by calling the Office of Tariff Affairs and Trade Agreements voice messaging system, 202-205-2592 or by FAX at 202-205-2616.

These proposals, which have been reviewed by interested government agencies, are intended to serve as the basis for the U.S. proposal to the Technical Committee on Rules of Origin (TCRO) of the Customs Cooperation Council (CCC) (now known as the World Customs Organization or WCO). The proposals do not necessarily reflect or restate existing Customs treatment with respect to country of origin applications for all current non-preferential purposes. Based upon a decision of the Trade Policy Staff Committee, the proposals are intended for future harmonization for the nonpreferential purposes indicated in the ARO for application on a global basis. They seek to take into account not only U.S. Customs current positions on substantial transformation but additionally seek to consider the views of the business community and practices of our major trading partners as well. As such they represent an attempt at reaching a basis for agreement among the contracting parties. The proposals may undergo change as proposals from other administrations and the private sector are received and considered. Under the circumstances, the proposals should not be cited as authority for the application of current domestic law.

If eventually adopted by the TCRO for submission to the Committee on Rules of Origin of the World Trade Organization, these proposals would comprise an important element of the ARO work program to develop harmonized, non-preferential country of origin rules, as discussed in the Commission's earlier notice. Thus, in view of the importance of these rules, the Commission seeks to ascertain the views of interested parties concerning the extent to which the proposed rules reflect the standard of substantial transformation provided in the Agreement. In addition, comments are also invited on the format of the
