

between the Natural Resources Defense Council, the Department of Justice, and the Department of the Interior for the settlement of a lawsuit challenging the inadequacy of the environmental documentation prepared for the 1987 and 1988 amendments to the RRA rules and regulations. Reclamation agreed to propose new regulations as part of a new rulemaking proceeding that comprehensively reexamines implementation of the RRA, and prepare an EIS considering the impacts of the proposed regulations and alternatives. The FEIS represents a modification of the DEIS based upon public comments.

Six alternatives—including no action and preferred—are presented in the FEIS. They encompass varying levels of regulation to implement the RRA on a westwide basis. This is an EIS in which existing information was used in conjunction with the development of specific assumptions to estimate a range of potential environmental impacts resulting from specific rule changes. While the significance of these impacts on a westwide basis is small, localized impacts could be significant for some alternatives.
