

aircraft or aerospace vehicle parts and products, the use of organic solvents and organic solvent cleaners, the coating of miscellaneous metal parts and products, the application of adhesives, and the coating of flat wood paneling.

The intended effect of proposing approval of these rules is to regulate emissions of VOCs in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules Section of this Federal Register, the EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments on this proposed rule must be received in writing by March 13, 1996.

#### Approval and Promulgation of Implementation Plans Mississippi: Approval of Revisions to the Mississippi State Implementation Plan

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** On June 14, 1991, and January 26, 1994, the State of Mississippi, through the Mississippi Department of Environmental Quality (MDEQ) submitted revisions to the Mississippi State Implementation Plan (SIP). These SIP revisions incorporate changes to Regulation APC-S-1 "Air Emission

Regulations for the Prevention, Abatement, and Control of Air Contaminants". The major sections being revised include: Section 1. General, Section 2. Definitions, Section 3. Specific Criteria for sources of Particulate Matter, Section 6. New Sources, Section 8. Provisions for Hazardous Air Pollutants, Section 9. Stack Height Considerations, and Section 11. Severability.

The regulation amendments and revisions were the subject of public hearings held on March 27, 1991, and November 24, 1993, and became state effective on May 28, 1991, and January 9, 1994, respectively. EPA is approving the amendments to Regulation APC-S-1 "Air Emission Regulations for the Prevention, Abatement, and Control of Air Contaminants" because these revisions are consistent with the requirements of the Clean Air Act and EPA guidance.

In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule.
