Approval and Promulgation of Implementation Plans; State of Nebraska

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the state of Nebraska for the purpose of fulfilling the requirements set forth in the EPA's General Conformity rule. The SIP was submitted by the state to satisfy the Federal requirements in 40 CFR 51.852 and 93.151. In the final rules' section of the Federal Register, the EPA is approving the state's SIP revision as a direct final rule without prior proposal, because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in

commenting on this document should do so at this time.

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Approval of Source-Specific VOC and NOx RACT and Synthetic Minor Permit Conditions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania. This revision establishes and requires reasonably available control technology (RACT) on one major source and establishes permit conditions to limit eight source's emissions to below major source levels. A detailed rationale for the approval is set forth in the direct final rule and the technical support document. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be amended to withdraw any permits that are the subject of adverse comments. Public comments will be addressed in a subsequent final rule based on this proposed rule. Only those permits for which EPA receives adverse comments will be addressed by this

subsequent rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.
