BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

Documents Containing Reporting or Recordkeeping Requirements: Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review or continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection:
10 CFR Part 73—Physical Protection of Plants and Materials
2. Current OMB approval number:
3150-0002.
3. How often the collection is required: On occasion. Required reports are collected and evaluated on a continuing basis as events occur.
4. Who is required or asked to report: Persons who possess, use, import, export, transport, or deliver to a carrier for transport, special nuclear material.
5. The number of annual responses:
68,643.
6. The number of hours needed annually to complete the requirement or request: 410,602 hours.

7. Abstract: 10 CFR Part 73 prescribes requirements for establishment and maintenance of a physical protection system with capabilities for protection of special nuclear material at fixed sites and in transit and of plants in which special nuclear material is used. The revision reflects an increase in burden because of requirements for the physical fitness, day firing, and vehicle bomb rulemakings that were previously

approved by OMB. There was also an adjustment to the burden because of the elimination of the requirement to have licensees submit quarterly log reports.

Submit by April 12, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street NW, (lower level), Washington, DC. Members of the public who are in the Washington, DC, area can access this document via modem within 30 days of the signature date of this notice on the Public Document Room Bulletin Board (NRC's Advance Copy Document Library), NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 F33, Washington, DC, 20555-0001, or by telephone at (301) 415-7233, or by Internet electronic mail at BJS1@NRC.GOV.

Dated at Rockville, Maryland, this 1st day of February, 1996.

For the Nuclear Regulatory Commission.
Gerald F. Cranford,
Designated Senior Official for Information Resources Management.

BILLING CODE 7590-01-P

Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

AGENCY: U. S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment. The NRC hereby informs potential respondents that an

agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

SUMMARY: The NRC has recently submitted to the OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission, new, revision, or extension: Revision/Extension
2. The title of the information collection: 10 CFR Part 52, "Early Site Permits; Standard Design Certifications; and Combined Licenses for Nuclear Power Plants."

3. The form number if applicable: Not applicable.

4. How often the collection is required: On occasion and every 10 to 20 years for applications for renewal.

5. Who will be required or asked to report: Designers of commercial nuclear power plants, electric power utilities, and any person eligible under the Atomic Energy Act to apply for a construction permit for a nuclear power plant.

6. An estimate of the number of responses: Two applications for design certification will be under review during the next three years.

7. An estimate of the total number of hours needed annually to complete the requirement or request: Approximately 65,333 hours per year for both applications in addition to the burden associated with 10 CFR Parts 20, 50, 73 and 100 (approved by OMB under Clearance Nos. 3150-0014, 3150-0011, 3150-0002, and 3150-0093, respectively).

8. An indication of whether Section 3507(d), Public Law 104-13 applies: Not applicable.

9. Abstract: 10 CFR Part 52 establishes requirements for the granting of early site permits, certifications of standard nuclear power plant designs, and licenses which combine in a single license a construction permit and an operating license with conditions (combined licenses). Part 52 also establishes requirements for renewal of these permits, certifications, and licenses; amendments to them; exemptions from certifications; and variances from early site permits.

NRC uses the information collected to assess the adequacy and suitability of an applicant's site, plant design, construction, training and experience, and plans and procedures for the protection of the public health and safety. The NRC review of such information and the findings derived
