Polyethylene Terephthalate Film, Sheet, and Strip From the Republic of Korea; Amended Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of amended final results of Antidumping Duty Administrative Review.

SUMMARY: On August 17, 1995, the Department of Commerce (the Department) published the final results of its administrative review of the antidumping duty order on polyethylene terephthalate film, sheet, and strip from the Republic of Korea (60 FR 42835). Clerical errors which were timely filed by the parties were not corrected by the Department prior to the time the parties filed suit with the Court of International Trade (CIT). Therefore, leave was requested to correct the clerical errors in this case. Pursuant to orders issued by the CIT on November 16, 1995, and November 27, 1995, granting leave to the Department to correct ministerial errors, we have corrected several ministerial errors with respect to sales of subject merchandise by four Korean manufacturers/exporters. The errors were present in our final results of review. The review covers the period November 30, 1990, through May 31, 1992. We are publishing this amendment to the final results of review in accordance with 19 C.F.R. 353.28(c) and the orders issued by the CIT.

EFFECTIVE DATE: February 12, 1996.

FOR FURTHER INFORMATION CONTACT: Roy F. Unger, Jr. or Thomas F. Futtner, Office of Antidumping Compliance, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230, telephone: (202) 482-0651/3814.

SUPPLEMENTARY INFORMATION:

Background

The review covers four manufacturers/exporters of polyethylene terephthalate (PET) film from the Republic of Korea (Korea): Cheil Synthetics, Inc. (Cheil), SKC Limited (SKC), Kolon Industries, Inc. (Kolon), and STC Corporation (STC), and the period November 30, 1990 through May 31, 1992. The Department published the preliminary results of review on July 8, 1994 (59 FR 35098), and the final results of review on August 17, 1995 (60 FR 42835).

Clerical errors which were timely filed by the parties were not corrected by the Department prior to the time the parties filed suit with the CIT. Therefore, leave was requested to correct the clerical errors in this case. On November 16, 1995, and November 27, 1995, the CIT issued orders granting leave to the Department to correct ministerial errors in these final results.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute and to the Department's regulations are references to the provisions as they existed on December 31, 1994.

Scope of Review

Imports covered by the review are shipments of all gauges of raw, pretreated, or primed polyethylene terephthalate film, sheet, and strip, whether extruded or coextruded. The films excluded from this review are metallized films and other finished films that have had at least one of their surfaces modified by the application of a performance-enhancing resinous or inorganic layer of more than 0.00001 inches (0.254 micrometers) thick. Roller transport cleaning film which has at least one of its surfaces modified by the application of 0.5 micrometers of SBR latex has also been ruled as not within the scope of the order.

PET film is currently classifiable under Harmonized Tariff Schedule (HTS) subheading 3920.62.00.00. The HTS subheading is provided for convenience and for U.S. Customs purposes. The written description remains dispositive as to the scope of the product coverage.

For most of the respondents the period of review (POR) covers November 30, 1990 through May 31, 1992. Because Cheil was determined to have a *de minimis* margin in the *Preliminary Determination of Sales at Less Than Fair Value* (56 FR 16305) (LTFV), Cheil's POR begins on April 22, 1991, when suspension of its merchandise was first ordered, and runs through May 31, 1992.

Ministerial Errors in Final Results of Review

The CIT granted leave to the Department to correct ministerial errors. The Department determined that it made the following clerical errors in the final results:

All Respondents

In the final calculations, the Department's cost of production (COP) test for all respondents inadvertently retained products sold below the COP in

less than three months. We corrected the COP test calculations for all respondents by revising the COP test to exclude those products from our dumping analysis which were sold in less than three months during the period of review (POR) and were also sold below COP for those months (i.e., a product sold in two months would be excluded from analysis if that product was sold below COP for two months).

Cheil

In our final calculations we inadvertently failed to add Cheil's duty drawback for local export sales (a type of home market sale) to Cheil's net home market price before conducting the COP test. We corrected this clerical error by adding duty drawback to Cheil's net home market price before conducting the COP test.

In our final calculations we inadvertently included packing and imputed credit expenses twice in the calculation of constructed value (CV). We corrected this by re-writing the CV program to include these expenses only once.

Our final calculations contained a typographical error in the product code variable in the difference-in-merchandise section. We corrected this error by re-writing this section of the calculations with the correct product code variable.

SKC

The final calculations contained a typographical error in the variable name for two models of PET film in SKC's model-matching section. We corrected this error by inserting the correct variable name for these two models of PET film.

In our final calculations, we inadvertently re-calculated SKC's imputed U.S. credit expense using date of sale for unpaid sales to Anacomp instead of the date of payment. We corrected this error by re-calculating SKC's U.S. credit expense using the date of payment.

Our final results calculations failed to use the proper data set containing SKC's further-processed sales in the United States in calculating SKC's exporter's sales price (ESP) transactions. We corrected this error by using the proper data set for SKC's ESP calculations. In our final calculations we incorrectly computed profit attributable to further-processed sales by inadvertently deducting SKC's U.S. movement expenses twice from this calculation. We corrected this error by re-writing the further-processed sales program to deduct these expenses only once.

Kolon

In the final calculations for Kolon we re-calculated Kolon's U.S. inland insurance expense based upon revised data gathered at verification. These calculations contained a typographical error. We corrected the typographical error in the final calculations of Kolon's U.S. inland insurance expense.

STC

For our final calculations we inadvertently re-calculated STC's home market credit expense based upon a shorter payment period than its actual payment period. We corrected our final calculations by computing STC's home market credit expense based upon the actual payment period.

Amended Final Results of Review

Upon correction of the ministerial errors listed above, the Department has determined that the following margins exist for the periods indicated:

Manufacturer/exporter	Percent margin
November 30, 1990 through May 31, 1992:	
SKC Limited	0.11
Kolon Industries	0.60
STC Corporation	11.41
April 22, 1991 through May 31, 1992:	
Cheil Synthetics	0.07

The Customs Service shall assess antidumping duties on all appropriate entries. Individual differences between USP and FMV may vary from the percentages stated above. The Department will issue appraisal instructions concerning each respondent directly to the U.S. Customs Service.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise, entered, or withdrawn from warehouse, for consumption on or after the publication date of these amended final results of administrative review, as provided for by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for the reviewed firms will be the rates outlined above, except for Cheil and SKC, which, because their weighted-average margins were *de minimis*, will be zero percent; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or in the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most

recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department in the LTFV investigation, the cash deposit rate will be 4.82%, the all others rate established in the LTFV investigation.

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice serves as the final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of the APO is a sanctionable violation.

This amendment of final results of review and notice are in accordance with section 751(f) of the Tariff Act (19 U.S.C. 1675(f) and 19 CFR 353.28(c).

Dated: January 31, 1996.

Susan G. Esserman,
Assistant Secretary for Import Administration.

The product covered by this administrative review is shop towels. Shop towels are absorbent industrial wiping cloths made from a loosely woven fabric. The fabric may be either 100 percent cotton or a blend of materials. Shop towels are currently classifiable under item numbers 6307.10.2005 and 6307.10.2015 of the *Harmonized Tariff Schedules* (HTS). Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of these final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) The cash deposit rates for the reviewed companies will be those rates established above (except that if the rate for a firm is *de minimis*, i.e., less than 0.5 percent, a cash deposit of zero will be required for that firm); (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review or the original investigation, the cash deposit rate will be 4.60 percent, the "All Others" rate established in the LTFV investigation (57 FR 3996).

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.
