

plasmid vector pCIB4431, and information on social, economic, and environmental benefits to be derived from such use. Based on these reviews, the Agency was able to make basic environmental, health, and safety determinations which show that use of *Bacillus thuringiensis* delta-endotoxin as produced in corn by a cryIA(b) gene and its controlling sequences as found on plasmid vector pCIB4431 consistent with the terms and conditions of registration during the period of conditional registration will not significantly increase the risk of unreasonable adverse effect on the environment.

These products are conditionally registered in accordance with FIFRA section 3(c)(7)(B). Submission of production information for these products for the fiscal year in which use of commercial field corn is conditionally registered, begins on October 1, and ends September 30. Production information will be submitted to the Agency no later than November 15, following the end of the preceding fiscal year. If the conditions are not complied with the registrations will be subject to cancellation in accordance with FIFRA section 6(e). These registrations will automatically expire on midnight August 2, 2000.

More detailed information on these conditional registrations is contained in an EPA Pesticide Fact Sheet on *Bacillus thuringiensis* delta-endotoxin as produced in corn by a cryIA(b) gene and its controlling sequences as found on plasmid vector pCIB4431.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the Product Manager. The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must

be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.
