

The scientific data reported and other relevant material were evaluated, and it was determined that exemptions from the requirement of tolerances will protect the public health. Therefore, the temporary exemptions from the requirement of tolerances have been established on the condition that the pesticides be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredients to be use must not exceed the quantity authorized by the experimental use permit.

2. Northrup King Corporation must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These temporary exemptions from the requirement of tolerances expire May 30, 1996. Residues remaining in or on all raw agricultural commodities after this expiration date will not be considered actionable if the pesticides are legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary exemptions from the requirement of tolerances. These temporary exemptions from the requirement of tolerances may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirement of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).

Authority: 21 U.S.C. 346a(j).

List of Subjects

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: January 31, 1996.

Janet L. Andersen,
*Acting Director, Biopesticides and Pollution
Prevention Division, Office of Pesticide
Programs.*
