

labeling new products will be ninety days after the publication of the ranges in the Federal Register. Similarly, manufacturers of storage-type water heaters, who began to comply with the amendments in 1994, used the 1994 DOE cost figures in determining the secondary energy use disclosures on the labels on their products. They must continue to use 1994 cost figures to calculate these estimated annual operating cost figures on their labels until the Commission publishes new ranges of comparability for those products. As in the past, products that have been properly labeled prior to the

effective date of any range modification need not be relabeled.

For Energy Cost Representations Respecting Products Covered by EPCA but not by the Commission's Rule: Manufacturers of products covered by section 323(c) of EPCA, 42 U.S.C. 6293(c), but not by the Appliance Labeling Rule (clothes dryers, television sets, kitchen ranges and ovens, and space heaters) must use the 1996 representative average unit costs for energy in all operating cost representations beginning May 14, 1996.

Coast Guard

33 CFR Part 100

[CGD 09-95-029]

Special Local Regulations; Great Lakes Annual Marine Events

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is revising its list of annual marine events which occur within the Ninth Coast Guard District. Publication of this list in part 100 of the Code of Federal Regulations will establish permanent special local regulations for marine events within the Ninth Coast Guard District which recur on an annual basis and which have been determined by the District Commander to require the issuance of special local regulations. This action is being taken to

ensure the safety of life, limb and property during each event, while avoiding the necessity of publishing a separate temporary regulation each year for each event. The list reflects the approximate dates and locations of each annual marine event.

DATE: This rule is effective February 14, 1996.

FOR FURTHER INFORMATION CONTACT: Marine Science Technician Second Class Jeffrey M. Yunker, Ninth Coast Guard District, Aids to Navigation Branch, 1240 East Ninth Street, Cleveland, Ohio, 44199-2060, (216) 522-3990.

SUPPLEMENTARY INFORMATION:

Drafting Information

The drafters of these regulations are Lieutenant Junior Grade Byron D. Willeford, Project Officer, Ninth Coast Guard District, Aids to Navigation Branch and Lieutenant Commander Michael Zack, Project Attorney, Ninth Coast Guard District Legal Office.

Regulatory History

On November 1, 1995, the Coast Guard published a notice of proposed

rulemaking entitled Special Local Regulations; Great Lakes Annual Marine Events in the Federal Register (60 FR 55511). The deadline for the submission of comments was December 18, 1995. The Coast Guard received no letters commenting on the proposal. A public hearing was not requested and one was not held. The Commander Ninth Coast Guard District has decided to publish the final rule as proposed.

Background and Purpose

This rulemaking updates an existing list of anticipated annual events. Each year various public and private organizations sponsor marine events on the navigable waters of the United States within the Ninth Coast Guard District. These events include slow moving boat parades, sailboat races, high speed hydroplane races, fireworks displays, and other water related events. The listed events are held in approximately the same location during the same general period of time each year. Exact times and dates will be published in the Local Notice to Mariners instead of being published in this final rule. This will streamline the marine event process for those regattas

and marine events that have very little annual variation and will significantly reduce the Coast Guard's administrative burden for managing these type of events with no reduction in services to the maritime community. The nature of each event is such that special local regulations are deemed necessary to ensure the safety of life, limb, and property on and adjacent to navigable waters during the events. Group Commanders have consulted and will continue to consult with parties potentially affected by any significant changes to the nature, date, time, and location proposed by an event sponsor for any of the events covered in this rule.

Table 1 gives the approximate dates, times, and locations for the annual events listed. Each year, one or more Local Notice to Mariners will be published giving the exact dates, times, and locations for the annual events. It should be noted that Table 1 in the regulation is not a complete list of all marine events that will occur in the Ninth Coast Guard District. It does not include events which do not require special local regulations for the safety of life, limb, and property on or adjacent to navigable waters. It also does not include nonannual events or events which have not been scheduled in time for this publication.

Federalism Implications

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environment

The Coast Guard is simply proposing to revise its list of annual marine events. The listing itself will not affect the environment. Upon receipt of applications, the Coast Guard will conduct an environmental analysis for each event in accordance with section 2.B.2.c of Coast Guard Commandant Instruction M16475.1B, and the Coast Guard Notice of final agency procedures and policy for categorical exclusions found at 59 FR 38654 (July 29, 1994).

Economic Assessment and Certification

These regulations are not a significant regulatory action under section 3(f) of Executive Order 12866 and do not require an assessment of potential costs and benefits under section 6(a)(3) of that order. They have been exempted from review by the Office of Management and Budget under that order. They are not significant under the regulatory policies

and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The Coast Guard expects the economic impact of these regulations to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of the DOT is unnecessary.

Collection of Information

These regulations will impose no collection information requirements under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq.

Final Regulations

In consideration of the foregoing, the Coast Guard is amending Part 100 of Title 33, Code of Federal Regulations, as follows:

1. The authority citation for Part 100 continues to read as follows:

Authority: 33 U.S.C. 1233; 49 CFR 1.46 and 33 CFR 100.35.

2. Section 100.901 is amended by revising Table 1 to read as follows:

§ 100.901 Great Lakes Annual Marine Events.

Sale and Disposal of National Forest System Timber; Appraisal Procedures for Determining Fair Market Value

AGENCY: Forest Service, USDA.

ACTION: Final rule; technical amendment.

This technical amendment removes the residual value appraisal procedure as the primary method for determining fair market value. The intended effect of this change is to clarify that the Chief of the Forest Service has the flexibility to select appropriate appraisal methods for determining fair market value of timber to be sold.

EFFECTIVE DATE: March 15, 1996.
