

Telecommunications Task Force, U.S. Department of Justice, Antitrust Division, 555 4th Street N.W., Room 8100, Washington, D.C. 20001.

Under Section X. of the Proposed Final Judgment, the Court will retain jurisdiction over this matter for the purpose of enabling any of the parties to apply to the Court for such further orders or directions as may be necessary or appropriate for the construction, implementation, modification, or enforcement of the Final Judgment, or for the punishment of any violations of the Final Judgment.

VI. Alternatives to the Proposed Final Judgment

The only alternative to the proposed Final Judgment considered by the Government was a full trial on the merits and on relief. Such litigation would involve substantial cost to the United States and is not warranted, because the proposed Final Judgment provides appropriate relief against the violations alleged in the Complaint.

VII. Determinative Materials and Documents

No particular materials or documents were determinative in formulating the proposed Final Judgment. Consequently, the Government has not attached any such materials or documents to the proposed Final Judgment.

Dated:

Respectfully submitted,

Frank G. Lamancusa
