

also seeks to be advised of Phase II categories that are completely settled.

II. Comments on Controversies

In order to schedule proceedings to resolve Phase II controversies as soon as possible after the conclusion of arbitration proceedings in Phase I, the Copyright Office directs all claimants to royalty fees collected in 1990, 1991 and 1992 for secondary transmissions by cable systems to submit comments as to whether controversies exist as to the distribution of these funds. If any controversies exist, the claimant should specifically name the claimants with whom he or she has a controversy. The Office also seeks comments as to whether each Phase II controversy should be handled by a separate CARP, or whether a single CARP should handle more than one or all controversies. Comments must be submitted no later than March 15, 1996.

III. Notice of Intent to Participate

In addition to comments on controversies, the Copyright Office requests those claimants who have identified the existence of a Phase II controversy and wish to participate in a Phase II distribution proceeding, to file a Notice of Intent to Participate in the proceeding by March 15, 1996. Failure of a claimant to file a timely Notice of Intent to Participate, or to be represented by another claimant filing a timely Notice, will subject the Phase II claim to dismissal. The filing of a timely Notice of Intent to Participate is thus critical to a claimant being able to present an effective claim in a Phase II proceeding.
