Department of the Air Force**Notice of Intent To Prepare an Environmental Assessment for Realignment of Scott AFB, IL**

The United States Air Force (Air Force) will prepare an Environmental Assessment (EA) to assess the potential environmental impacts of the realignment of an Illinois Air National Guard (ANG) unit to Scott Air Force Base (AFB) near Belleville, Illinois. The Mid-America civilian airport borders the site to the north. This action is required in connection with implementation of the recommendations of the 1993 and 1995 Defense Base Closure and Realignment Commissions.

The proposed realignment would relocate 10 KC-135 aircraft and associated personnel and equipment to Scott AFB and entails approximately \$80M in construction on the base. Under the No Action alternative, the ANG unit and its aircraft, personnel and equipment would not relocate. The purpose of the analysis is to determine the environmental impacts of the proposed realignment and if it requires the preparation of an Environmental Impact Statement (EIS).

The Air Force will conduct a public meeting to ensure the environmental assessment addresses the appropriate scope of issues. The public comments will be considered in the preparation of the EA. Notice of the date, time, and location of the meeting will be made available to public officials, the community, and the news media at a later date. Written comments on the scope of alternatives and impacts will also be accepted and considered. If the Air Force were to decide to propose an EIS, this process may also be substituted for the scoping process that would normally precede an EIS.

To ensure the Air Force will have sufficient time to consider all appropriate comments, please forward comments to the address listed below by 19 March 1996. The Air Force will accept appropriate input any time throughout this process.

Please direct any written comments or requests for further information concerning this action to: Ms. Jean Reynolds, HQ AMC/CEBP, 507 "A" Street, Scott AFB, IL 62225-5022, (618) 256-6128, ext. 394.

Patsy J. Conner,

Air Force Federal Register Liaison Officer.

Department of the Army**Corps of Engineers**

[3710-AJ]

Jacksonville District, Jacksonville, FL; Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the C-7, C-8, and C-9 (North Dade) Canals General Reevaluation Report (GRR)

AGENCY: U.S. Army Corps of Engineers, Department of Defense.

ACTION: Notice of intent.

SUMMARY: The Jacksonville District, U.S. Army Corps of Engineers (Corps), along with the South Florida Water Management District (SFWMD), intends to prepare a Draft Environmental Impact Statement (DEIS) for the feasibility phase of the C-7, C-8, and C-9 (North Dade) Canals General Reevaluation Report (GRR).

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and DEIS can be answered by: Mark Ziminske, Planning Division, U.S. Army Corps of Engineers, P.O. Box 4970, Jacksonville, Florida 32232-0019; Telephone 904-232-1786/Fax 904-232-3442.

SUPPLEMENTARY INFORMATION:

a. Authorization

Construction of the C-7 (Little River), C-8 (Biscayne), and C-9 (Snake Creek) canals, and associated water control structures, S-27, S-28, and S-29 was authorized by the Flood Control Act of 1948, which provided for construction of the first phase of a comprehensive plan for flood control, fish and wildlife preservation, regional groundwater control, salinity control, and navigation. The Energy and Water Development Act of 1955 authorized preparation of a GRR to review conveyance capacity of existing canals, document the quality of local maintenance, and to make recommendations for implementable solutions to flooding problems in the C-7, C-8, and C-9 drainage basins.

b. Study Area

The C-7, C-8, and C-9 basins are located in northeastern Dade County, Florida; all three canals as well as control structures S-27, S-28, and S-29 are previously constructed Corps' projects. The C-7 basin comprises 35 square miles, and is approximately 11 miles long. The western portion of the basin lies in Area B, an area of relatively poor drainage, west of the coastal ridge, eastern Dade County. S-27 is a double grouted concrete spillway located in C-7,
