

if the Department determines it is reasonable to do so. Although Daido's request for termination was submitted beyond the 90-day time limit, termination of the review is reasonable under the circumstances of this case, *i.e.*, because the Department has determined that merchandise produced by Daido and sold to the United States during the period of review is not within the scope of the antidumping duty order on SSPF's from Japan. Moreover, there were no requests for review from other interested parties. Accordingly, we are terminating this review.

This notice is published in accordance with 19 CFR 353.22(a)(5).

Dated: February 9, 1996.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance.

Titanium Sponge From Ukraine; Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Antidumping Duty Administrative Review.

SUMMARY: On November 22, 1995, the Department of Commerce (the Department) published the preliminary results of review of the antidumping duty order on titanium sponge from Ukraine (57 FR 36070, August 12, 1992). The review covers one manufacturer, Zaporozhye Titanium and Magnesium Combine (Zaporozhye) and exports of the subject merchandise to the United States from Ukraine during the period from August 1, 1992, through July 31, 1993.

We gave interested parties an opportunity to comment on the preliminary results of review. Since the Department received no comments, these final results of review remain unchanged from the preliminary results of review.

EFFECTIVE DATE: February 20, 1996.

FOR FURTHER INFORMATION CONTACT: David Genovese or Zev Primor, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-5254.

SUPPLEMENTARY INFORMATION:

Background

On August 30, 1993 and August 31, 1993, respectively, two U.S. producers of titanium sponge, Oregon Metallurgical Corporation (OREMET) and Titanium Metals Corporation (TIMET), requested an administrative review of the antidumping finding on titanium sponge from Ukraine. The Department initiated the review on September 30, 1993, (58 FR 51053), covering the period August 1, 1992, through July 31, 1993. On November 22, 1995, the Department published the preliminary results of review. In the preliminary results of review, the Department determined that Zaporozhye was a non-shipper for the purposes of an antidumping review since all entries of the subject merchandise were entered under temporary importation bond (TIB) procedures.¹ The Department has now completed this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Unless otherwise indicated, all citations to the statute and the Department's regulations are in reference to the provisions as they existed on December 31, 1994.

Scope of the Review

The merchandise covered by this review is all imports of titanium sponge from Ukraine. Titanium sponge is chiefly used for aerospace vehicles, specifically in the construction of compressor blades and wheels, stator blades, rotors, and other parts in aircraft gas turbine engines.

Imports of titanium sponge are currently classifiable under the harmonized tariff schedule (HTS) item number 8108.10.50.10. The HTS item number is provided for convenience and Customs purposes; our written description of the scope of this finding is dispositive.

This review covers sales and entries by Ukrainian exporters, producers, sellers, and resellers of the subject merchandise during the period August 1, 1992, through July 31, 1993.

¹Merchandise entered under TIB procedures are not entries for consumption, and therefore, cannot be considered merchandise subject to an antidumping duty order and included within a determination resulting from a 751(a) administrative review. Moreover, a review of TIB entries cannot serve as the basis for the assessment of antidumping duties on entries of the merchandise included within the determination and for deposits of estimated duties, which is the purpose of an administrative review.

Final Results of Review

We gave interested parties an opportunity to comment on the preliminary results. Since the Department received no comments, we have continued to treat Zaporozhye as a non-shipper of the subject merchandise for these final results. Accordingly, as provided by section 751(a)(1) of the Act, the cash deposit rate for all shipments of titanium sponge from Ukraine, entered or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, will be 83.96 percent. These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: February 8, 1996.

Susan G. Esserman,

Assistant Secretary for Import Administration.
