

C. Release of Lien of ODEC's Indenture

As indicated in the initial application, the Undivided Interest would be leased to the Equity Investor subject to the lien of ODEC's Indenture. As originally proposed, this lien was to survive even if ODEC elected not to exercise its Purchase Option under the Operating Lease. Now, however, ODEC is now proposing that at the end of the Operating Lease, if it chooses not to exercise its Purchase Option, it would obtain the release of the Undivided Interest from the lien of its Indenture.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426 in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedures (18 385.211 and 385.214). All such motions or protests should be filed on or before February 22, 1996. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,
Secretary.

BILLING CODE 6717-01-M

[Docket No. RP96-142-000]**Texas Eastern Transmission Corporation; Notice of Proposed Changes in FERC Gas Tariff**

February 14, 1996.

Take notice that on February 12, 1996, Texas Eastern Transmission Corporation (Texas Eastern) tendered for filing as part of its FERC Gas Tariff, Sixth Revised Volume No. 1, revised tariff sheets as follows:

First Revised Sheet No. 526
Original Sheet No. 526A
First Revised Sheet No. 528
Original Sheet No. 528A
First Revised Sheet No. 529

The proposed effective date of these revised tariff sheets is February 12, 1996.

Texas Eastern states that this filing is submitted as a limited application pursuant to Section 4 of the Natural Gas Act, 15 U.S.C. Section 717c (1988) and Part 154 of the Rules and Regulations of the Federal Energy Regulatory

Commission (Commission) promulgated thereunder, in order to address inappropriate balancing incentives identified with the operation of its current cash-out mechanism contained in Section 8 of the General Terms and Conditions of Texas Eastern's FERC Gas Tariff, Sixth Revised Volume No. 1. Texas Eastern states that the revised tariff sheets filed to modify Section 8 of the General Terms and Conditions of Texas Eastern's FERC Gas Tariff, Sixth Revised Volume No. 1 are necessary to protect the system and to protect Texas Eastern's customer from the impact of gaming the cash-out mechanism.

Texas Eastern states that the revised tariff sheets filed herein change the cash-out mechanism contained in Section 8 of the General Terms and Conditions of Texas Eastern's FERC Gas Tariff, Sixth Revised Volume No. 1, by replacing the current weighted average pricing methodology to a highest/lowest price application if imbalances exceed 5%. Texas Eastern states, *inter alia*, that the change is necessary in order to reduce the incentives existing in its current mechanism for an individual party to take actions which cause detriment to the operation of the system as a whole and which result in other parties subsidizing an individual party's efforts to profiteer. Texas Eastern has requested waiver of notice period to allow immediate implementation.

Texas Eastern states that copies of its filing have been served on all firm customers of Texas Eastern, interested state commissions, and all interruptible shippers as of the date of the filing.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5426-6]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before March 22, 1996.

FOR FURTHER INFORMATION OR A COPY CALL:

Sandy Farmer at EPA, 202-260-2740, and refer to EPA ICR No. 0575.07.

SUPPLEMENTARY INFORMATION:

Title: TSCA Section 8(d) Health and Safety Data Reporting Rule (OMB Control No. 2070-0004, EPA ICR No. 0575.07). This is a request for extension of a currently approved information collection which expires on February 28, 1996.

Abstract: Section 8(d) of the Toxic Substances Control Act (TSCA) and regulations at 40 CFR part 716 requires manufacturers and processors of chemicals to submit lists and copies of health and safety studies relating to the health and/or environmental effects of certain chemical substances and mixtures. In order to comply with the reporting requirements of section 8(d), respondents must search their records to identify any health and safety studies in their possession, copy and process relevant studies, list studies that are currently in progress, and submit this information to EPA.

EPA uses this information to construct a complete picture of the known effects of the chemicals in question, leading to determinations by EPA of whether additional testing of the chemicals is required. The information
